lot consists of parking and vacant area for future development. The General Plan designates the site Community/Neighborhood Commercial & Offices. The surrounding land use and zoning includes commercial (to the north, east and west) and industrial (to the south); zoned C-2 and M-2S respectively.

B. Applicant's Proposal

The applicant is requesting a lot line adjustment to relocate the common property line between two parcels. This request will allow the Credit Union and all the existing parking for the building to be located on one site (Parcel C), and the undeveloped land to be located on Parcel B.

C. Policy Considerations

The General Plan designates the Community/Neighborhood Commercial & Offices. The existing development is consistent with the plan designation.

D. Staff Analysis

Staff has no objection to the applicant's request. The proposal results in two parcels, one containing 2.0 acres and the other 0.7 acres. The lot line adjustment allows Parcel B to be more marketable. Any future development of Parcel B must meet all Zoning Ordinance requirements.

E. Agency Comments

The proposed project has been reviewed by the City Transportation Division, Utility Division, Utilities Division, and Engineering Development Services. The following comments have been received from Engineering Development Services:

1. File a Certificate of Compliance, submit all required documents according to the submittal requirements checklist, and pay necessary fees.
2. File a waiver of Parcel Map.
3. Verify reciprocal access is retained to easterly parcel across the westerly parcel.
4. **Notice:** Property to be adjusted in accordance with this certificate of compliance may be **subject to flooding**. Interested parties should ascertain whether and to what extent such **flooding** may occur. The applicable base flood elevations for the property should be **reviewed**. Base flood elevations are contained in the U.S. Army Corps of Engineers Flood Insurance Study Working Map for the Sacramento Community, dated January 1989, available for review at the City of Sacramento's Public Works Department, Development Services, Room 100, 927 10th Street.

ENVIRONMENTAL DETERMINATION: The Environmental Services Manager has determined that the project, as proposed, is exempt from environmental review pursuant to State EIR Guidelines (CEQA

Section 15305a).

RECOMMENDATION: Staff recommends the Planning Commission approve the Lot Line Adjustment to relocate the property line between two parcels by adopting the attached resolution.
