Clarke C. Broome
900 Second Street
Sacramento, CA 95814

This set of plans and specifications must be kept on the job at all times and it is unlawful to make any changes or alterations from the same without written permission from the City of Sacramento Sign Section. The approval of this plan and specification SHALL NOT be held to permit or approve the violation of any City Ordinance or State Law.

All electrical work must be U.L. labeled or be of equivalent standards, N.E.C. Sec. 90-6/and comply with chapter 14, Div. 2 of The Sacramento City Code.

Dear Mr. Broome:

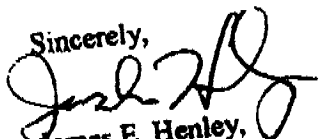

EQUIPMENT MUST BE USED AS DESIGN INTENDED

Per our telephone conversation this morning, I met and have approved your sign design application with the following changes:
1. All exposed wood surfaces will be painted with gloss or semi-gloss paint.
2. The colors will not contain metal flake or metallic elements.

We do not encourage the concept of attempting to "age" a sign by distressing its surface or artificially weathering the surface. We support signs that represent design and construction that reflects Old Sacramento in the time period of 1849-1880.

A copy of your application is attached and approved with these comments intended to be part of the approved application.

You will still need to obtain a sign permit. Should you need assistance, Nicole York Johnson in the Old Sacramento Project Office can assist you.

Sincerely,

James E. Henley,
Manager,
Sacramento History and Science Division

DATE: _____

FF Quotation.pub © Forms & Finishes, Inc. For Fulton's Restaurant, BUYER

Not Approved 8/27/2005
 Resubmitted & approved per attached letter 9/14/2005

SCOPE OF WORK

1. The design, fabrication, and installation of 2 (two) exterior Redwood signs with painted characters one side (face)

LOCATION OF SIGNS

1. The location of the project is: Fulton's Restaurant, 900 Second Street (Corner of 2nd and J Streets), Sacramento, CA.
2. The location of the signs shall be:
 - A. 2 exterior flat redwood signs shall be attached with thru-bolts to the existing wrought iron fence located at the corner of 2nd and J Streets. 1 sign shall face J Street, and the other shall face 2nd Street.

SIGN CONSTRUCTION

1. Both signs shall be constructed of 1-3/4" x 1-1/4" Solid Redwood biscuit-joined / glued planks, with painted letters (one side). Plank joints shall be concealed. 1-3/4" x 1" iron "U" channel shall be attached to the perimeter of the signs to prevent weathering of end grain. After painting of the letters and U-Channel, a dull-clear top-coat of polyurethane oil will be applied to preserve the wood surfaces.

SIGN INSTALLATION

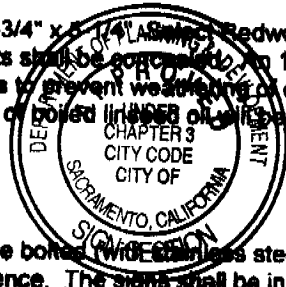

1. The two fence-mounted signs shall be bolted with stainless steel fasteners and back-up plates directly to the existing wrought iron fence. The signs shall be installed centered on a single fence section, and shall not rise above or below the existing curb. U.L. labeled or be of equivalent standards, N.E.C. Sec. 90-6/and comply with chapter 14, Div. 2 of The Sacramento City Code.

LIGHTING

1. The signs to be installed on the wrought iron fence shall not be back or face lit.

AESTHETIC NOTES

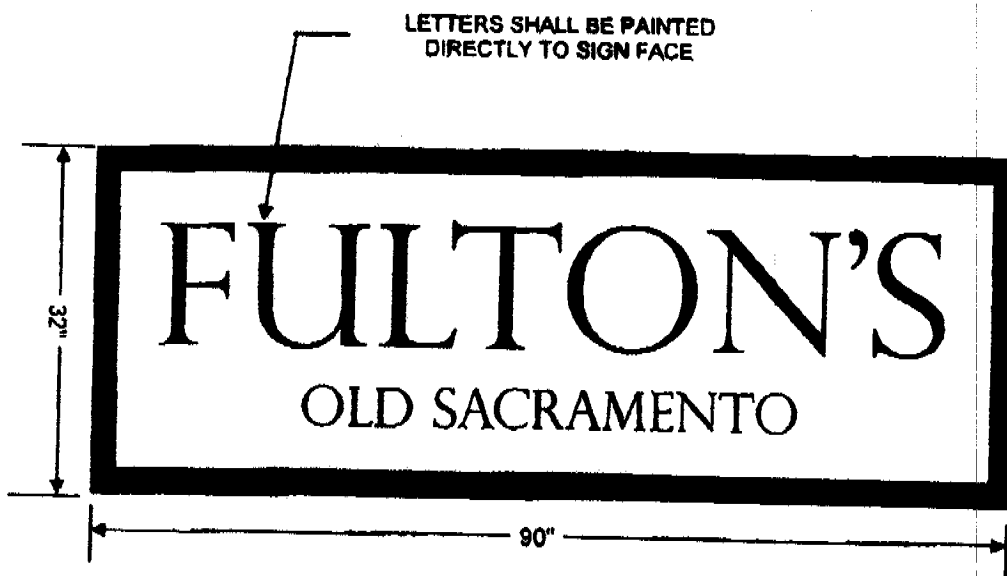

1. The signs have been designed to harmonize with the environment of Old Sacramento. The colors will harmonize well with the historical appearance of the area. Every attempt will be made to design and fabricate signage that appears to be "period" or original. The fence-mounted signage will be greater than 16" from the sidewalk grade, and will be installed flush with the existing fence. The fence is installed atop a concrete (approx. 8" high) curb that will make allowance for the signs to be inset approx. 3-1/2" away from the walking surface.
2. The customer has indicated that the two signs are temporary in nature.

This set of plans and specifications must be read in its entirety and it is unlawful to make any changes or alterations from the same without written permission from the City of Sacramento Sign Section. The approval of this plan and specification SHALL NOT be held to permit or approve the violation of any City Ordinance or State Law.

EQUIPMENT MUST BE USED AS DESIGN INTENDED
ALL SIGN INSTALLATIONS ARE SUBJECT TO FIELD INSPECTIONS
