

RESOLUTION NO. 2007-752

Adopted by the Sacramento City Council

October 16, 2007

Stockton Boulevard Beautification – Phase III Project (PN: TY51)

BACKGROUND

- A. The Stockton Boulevard Beautification – Phase III Project constructed aesthetic improvements and enhanced bicycle and pedestrian safety along Stockton Boulevard between El Paraiso Avenue and Riza Avenue. The improvements include landscaped medians, bike lanes, new curb, gutter and sidewalk in various areas, tree wells, new curb ramps, new drain inlets, traffic signal modifications, and dual left turn lanes at 47th Avenue and Stockton Boulevard in all four directions of travel.
- B. This project was advertised and bids were received on July 18, 2006. This project was awarded to Martin Brothers Construction, Inc. in the amount of \$2,899,090 by City Council on August 29, 2006.
- C. Change Orders No. 1 and 2 total \$177,600 and compensate Martin Brothers Construction, Inc. for additional work requested and other activities which were necessary to complete the project.
- D. The project is scheduled to be complete in September 2007 and Change Order No.3 in the amount of \$105,875 will compensate the contractor for balancing some of the quantities for various items of work and to pay the contractor for a portion of the work needed to install a traffic signal at Dias Avenue before the federal overlay scheduled this fall. This work includes median modifications, curb ramps and installing signal conduit before overlaying Stockton Boulevard in an effort to avoid trenching the road after it is overlaid. The remainder of the work for a Traffic Signal at Stockton Boulevard and Dias Avenue will be designed and advertised separately. Construction is scheduled for Spring 2008.
- E. The Stockton Boulevard and Dias Avenue intersection is in the top ten on the TPG Traffic Signal Priority list. Currently there is no left turn allowed southbound on Stockton Boulevard from Dias Avenue and no pedestrian crossing across Stockton Boulevard. Various citizens have requested a signal at this intersection to accommodate a pedestrian crossing and open vehicular access to near by businesses, especially the grocery store. The Sacramento Housing and Redevelopment Agency (SHRA) has requested that the signal be designed and implemented. Since SHRA has fully funded this traffic signal, it's listed as No.8 on the TPG and there's a high community demand, we are requesting to proceed

with the design and construction of this traffic signal.

BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE CITY COUNCIL RESOLVES AS FOLLOWS:

- Section 1. The City Manager is authorized to execute Change Order No. 3 In the amount of \$105,875 with Martin Brothers Construction, Inc. for the Stockton Boulevard Beautification – Phase III Project (PN: TY51).
- Section 2. The City Manager's authority is reset.
- Section 3. The City Manager is authorized to direct staff to proceed with the design and construction of the traffic signal at the intersection of Stockton Boulevard and Dias Avenue.
