PROJECT EVALUATION: Staff has the following comments:

003124

- A. The project site is designated as Commercial-Offices in the City General Plan and Northgate Boulevard Commercial District in the 1978 South Natomas Community Plan. The subject site is proposed in the 1985 South Natomas Community Plan update as Mixed-Use, Residential and Office, and proposed for rezoning to Light Density Multiple Family (R-3-R) zone.

- B. The subject property is occupied with an existing single family dwelling, a free-standing garage, and several storage sheds. The southernmost parcel was formerly an automobile electrical and starter and motor repair shop which was destroyed by fire in 1982.

On-site trees to be removed include two Ash, one Eucalyptus and one Pine tree. The single family dwelling is proposed to be removed. Staff suggests that the house be offered to the general public for relocation to another site.

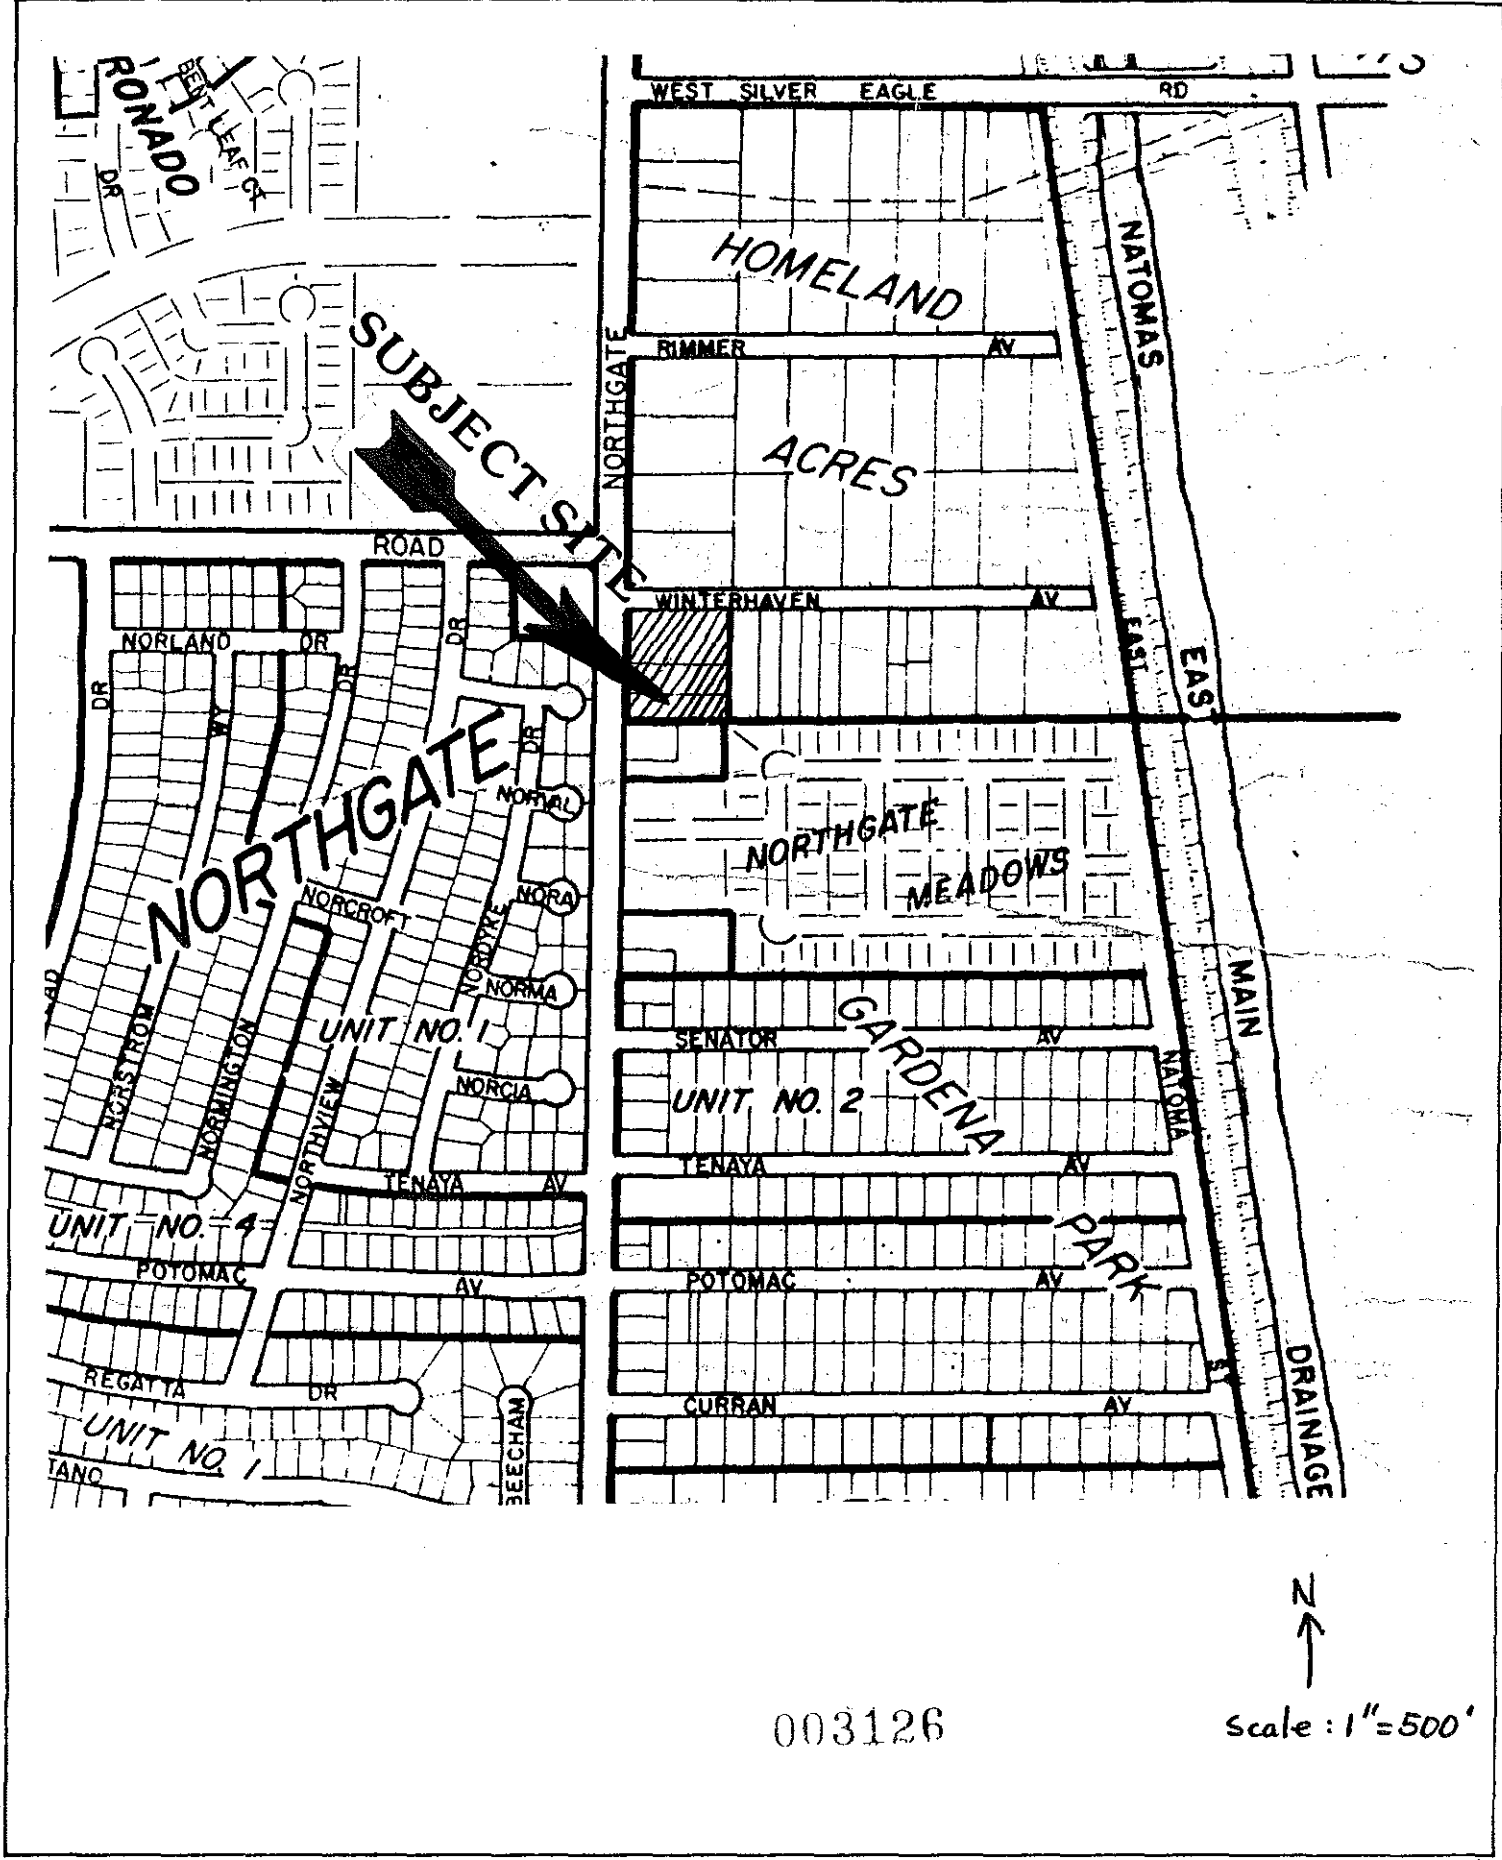

- C. The applicant proposes to remove the property lines dividing three adjacent parcels to create one 1.6+ acre parcel measuring 244 feet by 286 feet for the purpose of constructing a retail building of 10,800 square feet and a restaurant of 3,000 square feet of floor area. No tenants are identified at the time of the report.
- D. The properties to the east are occupied with single family dwellings. To the west across Northgate Boulevard are single family dwellings, a convenience market and a wholesale hardware warehouse on lands zoned R-1 and C-2. To the north is a mini-storage warehouse facility under construction in the C-2 zone. To the south are apartments and a vacant parcel.
- E. The project was reviewed by the City Traffic Engineer, Engineer, Real Estate and Water Division. A comment received from the Water Division indicated that standard improvements for water and sewer be provided and that the existing well be either abandoned or a backflow preventer installed for water services.

ENVIRONMENTAL DETERMINATION: This project is exempt from environmental review pursuant to State EIR Guidelines (CEQA, Section 15305(a)).

RECOMMENDATION: Staff recommends the Commission take the following action:

Approve the Lot Line Adjustment to merge the three parcels by adopting the attached resolution.
