12. T & S Construction Co., Inc.	98,085.00

The Engineer's estimate was \$74,000.00

BACKGROUND

A section of old 20" steel water main has deteriorated over the years due to corrosion and has become a maintenance problem. The Division proposes to replace this section of main. The project was originally advertised in August, 1978, and no bids were received. The project was readvertised in November, 1978 and all bids were rejected because of excessive costs. The project has been redesigned to provide a more cost-effective solution to the problem.
