**A. Land Use and Zoning**

The subject site consists of one parcel totaling 0.966 acres in the Light Industrial (M-1) zone. The General Plan designates the site Heavy Commercial and Warehouse. The surrounding zoning is M-1. The surrounding land use is industrial to the north, south and east; and vacant to the west.

B. Applicant's Proposal

The applicant is proposing to utilize an existing 11,700 square foot building with 5,850 square feet of office and 5,850 square feet of warehouse (Building B as shown on Site Plan). The Zoning Ordinance allows a maximum of 25 percent of the gross floor area of a building to be an office use in the M-1 zone. The Planning Director has the authority to issue a special permit to exceed this 25 percent as long as the total office area does not exceed 10,000 square feet. The applicant is proposing 5,850 square feet, 50 percent of the gross floor area.

C. Staff Analysis

Staff has no objection to this request. There is adequate parking on the site to accommodate this increased office use. The reciprocal ingress and egress easements have been recorded on the Tentative Map (P88-448).

ENVIRONMENTAL DETERMINATION: The proposed project is exempt from Environmental review pursuant to State EIR Guidelines (CEQA Section 15303c).

RECOMMENDATION: Staff recommends the Planning Director approve the Special Permit based upon findings of fact which follow.

Findings of Fact

1. The project is based upon sound principles of land use in that:
  - a. adequate parking is provided on site
  - b. the proposed use is compatible with the surrounding industrial uses and future industrial uses.
2. The project will not be detrimental to the public health, safety or welfare, nor result in the creation of a public nuisance in that adequate on-site parking and landscaping has been provided.
3. The project is consistent with the General Plan which designates the site Heavy Commercial and Warehouse and the office/warehouse use conforms to this designation.
