City Council
Sacramento, California

Honorable Members in Session:

SUBJECT: AUTHORIZATION TO APPLY TO THE CALIFORNIA INTEGRATED
WASTE MANAGEMENT BOARD FOR A USED OIL RECYCLING
BLOCK GRANT, FISCAL YEAR 2002/2003

LOCATION AND COUNCIL DISTRICT: Citywide

RECOMMENDATION:

This report recommends that the City Council adopt a resolution authorizing submittal of a grant application to the California Integrated Waste Management Board for a Used Oil Recycling Block Grant to promote used oil recycling.

CONTACT PERSON: G. Harold Duffey, Solid Waste Manager 433-4932

FOR COUNCIL MEETING OF: February 26, 2002

SUMMARY:

A grant application will be submitted to the California Integrated Waste Management Board by March 28, 2002. The proposed grant project would allow the City of Sacramento to act as the lead agency and grant administrator in a regional effort aimed at promoting used oil and filter recycling and to continue covering the cost of used oil collection. This report recommends City Council's approval of a resolution authorizing application for a Used Oil Recycling Block Grant, Fiscal Year 2002/2003, and execution of an agreement with the State to perform the work contained within the attached grant proposal.

City Council

Authorization to Apply to the California Integrated Waste Management Board for a Used Oil Recycling Block Grant, Fiscal Year 2002/2003
January 24, 2002

COMMITTEE/COMMISSION ACTION: None.

BACKGROUND INFORMATION:

The Solid Waste Division collected 65,460 gallons of used oil and 1,107 used oil filters in 2000 through the residential Curbside Recycling program. City staff is currently utilizing grant funding to collect and promoted used oil recycling throughout the City in compliance with State regulations and waste diversion mandates. Receipt of additional grant funding will allow the City of Sacramento to continue to promote used oil and filter recycling and to reimburse the City for ongoing program cost associated with this program. The City as the lead agency in a regional grant with the Cities of Citrus Heights, Galt, and Isleton will coordinate with these Cities for promotion of used oil recycling in their jurisdictions. The City is taking this role at the request of the California Integrated Waste Management Board. This will facilitate those jurisdictions compliance and increase the effectiveness of used oil recycling efforts on a regional basis. Due to changes in grant administration from the California Integrated Waste Management Board, it is now necessary to apply for grant funding on an annual basis instead of the original three year grant term.

The attached resolution for City Council adoption names the Solid Waste Manager as the City's authorized representative. This action is taken because the authorized representative is the only person whose signature will be recognized by the California Integrated Waste Management Board when the City submits progress and expenditure reports for reimbursement and other formal correspondence.

FINANCIAL CONSIDERATIONS:

Grant funding for the Used Oil Recycling Block Grant Fiscal Year is for a one-year grant cycle. The anticipated grant funding for the City of Sacramento for the period of 2002/2003 will be \$190,450. As the lead agency, the City of Sacramento's total grant funding will be \$244,441 (Galt \$9,210, Citrus Heights \$39,481, Isleton \$5,300). This funding will reimburse the City for the estimated cost of promoting and participating in this program.

ENVIRONMENTAL CONSIDERATIONS:

The grant project is not a project under CEQA. There is no possibility that the activity may have a significant effect on the environment. Therefore, this item is exempt from CEQA guidelines under §15061(b)(3).

POLICY CONSIDERATIONS:

The promotion of used oil and filter recycling is consistent with City of Sacramento waste diversion programs and goals. A comprehensive used oil and filter-recycling

program increases the effectiveness of current recycling efforts and is in compliance with State and City waste reduction mandates and goals.

Policy considerations related to the submittal of this grant application are enumerated below:

- The utilization of State grant funding to pay for used oil recycling is also consistent with Council policy to increase the scope of our services without impacting the City rate payer.
- The City of Sacramento is also subject to standards imposed by the Federal government related to the National Pollution Discharge Elimination System. Reducing the illegal discharge of used oil by means of increasing used oil recycling will facilitate the City's compliance with this federal mandate.

ESBD CONSIDERATIONS

The City will conform to all ESBD procurement policies and practices.

Respectfully submitted,

G. Harold Duffey
Solid Waste Division Manager
