LOCATION/COUNCIL DISTRICT E-F Alley Between 7th & 8th Streets and 9th & 10th Streets
District No. 1

SUMMARY

Plans and specifications for this project have been prepared. Approval of the plans and specifications and authorization to advertise for bids is recommended.

STAFF RECOMMENDATION

It is recommended that the City Council approve the plans and specifications for this project and authorize the City Clerk to advertise for bids to be received on September 23, 1992.

BACKGROUND INFORMATION

This project will provide for the reconstruction of E & F Alleys between 7th-8th and 9th-10th Streets as well as sidewalk replacement throughout the "Alkali Flat" portion of the City of Sacramento. Construction will include placement of a new alley section of Portland Cement concrete, a new underground drainage system in both alleys, replacement of existing water and sewer services and related appurtenances. Approximately 4,600 square feet of sidewalk will be removed and replaced at various locations.

The Sacramento Housing and Redevelopment Agency targeted this area as one of the few remaining locations to be improved within the Alkali Flat area. The Alkali Flat Project Area Committee voted unanimously to recommend approval of the individual project agreement for the alley and sidewalk project.
