Honorable Members in Session:

SUBJECT: Approval of Plans and Specifications for Installation of Street  
Improvements on 12th Street Adjacent to Dos Rios Housing Project

### SUMMARY:

Plans and specifications for the subject project have been prepared and approval is recommended. The estimated project cost is \$45,270.00. Additional funds are needed; however, no recommendation for funding will be requested until bids have been received.

### FINANCIAL:

In the FY 1979/80 Capital Improvement Program, the City Council approved the appropriation of \$12,000.00 from Gas Tax funds for the installation of curb, gutter and sidewalk on the northwest half of 12th Street adjacent to the Dos Rios Housing Project. The funds were to be reimbursed by the County Housing Authority. The current total cost estimate for the project, which now includes some needed drainage construction work, is \$45,270.00, of which the County Housing Authority has authorized reimbursement up to \$31,000.00. It is proposed that the needed additional funds be appropriated from the Sewer Fund. It is believed that bids should be received and analyzed before a final budgetary recommendation is made to the City Council.

### RECOMMENDATION:

It is recommended that the Budget and Finance Committee recommend to the full City Council that the plans and specifications be approved and that this project be advertised for bid.

Respectfully submitted,

R. H. PARKER  
City Engineer
