The next order of business before the Board was the establishment of proper employment dates for members of the Fire Department. This record is for the purpose of pensions. The establishment of these dates is based upon the evidence produced by the Secretary which was secured from the payroll records contained in the Controller's files.

After a review of these records by the members of the Board, and an explanation of the request by Captain Perret and Captain Polkinghorne, the following motion was made. It was properly moved by Commissioner Deise, seconded by Commissioner Weisman, and unanimously carried that the Secretary be instructed to place upon the service record of the employees affected their correct employment date, as evidenced by the records compiled by the Secretary, and that a letter be directed to each employee so affected showing the new employment date and requesting that he acknowledge as correct or else make a complaint to the Civil Service Board stating his date.
