Honorable Members in Session:

SUBJECT: Bids for 24" Diameter Water Transmission Main
(Sacramento River Water Treatment Plant to Richards Blvd.)

SUMMARY

Twelve bids were opened on January 19, 1982. It is recommended that a contract be awarded to the low bidder, Teichert Construction.

BACKGROUND

This project is part of the current 5-year Capital Improvements Program to extend filtered surface water across the American River to the Natomas Area of North Sacramento, and is the second phase of a two-phase project to move water from the Sacramento River Water Treatment Plant to West El Camino Avenue. Phase I is currently under construction (Richards Boulevard to West El Camino Avenue). These improvements will help perfect the City's surface water rights, reduce withdrawals from the underground supply, and are necessary to maintain adequate fire protection and water pressures during peak demand periods. Construction should be completed before May 1, 1982.

On December 22, 1981, the City Council approved plans and specifications for the subject project. Bids were received and opened by the City Clerk in the City Council Chambers on January 19, 1982. Bids received are as follows:

Teichert Construction	\$189,976
Granite Construction Co.	198,338
T & S Construction	204,066
