Transportation & Community Development Committee
Sacramento, California

Honorable Members in Session:

SUBJECT: REPORT-BACK - SACRAMENTO BIKEWAY MASTER PLAN UPDATE

SUMMARY

This report back provides the status of the Sacramento Bikeway Master Plan update environmental document, as requested by the Joint Budget & Finance/Transportation & Community Development Committee during the FY 1991-1996 CIP hearings.

This is for information only.

BACKGROUND INFORMATION

The City Council and County Board of Supervisors in 1988 reactivated the Sacramento City/County Bikeway Task Force by appointing 13 citizens to the task force. The purpose of the task force is to update the Sacramento Bikeway Master Plan which was adopted in July 1976. City and County staff have been working with the task force and anticipate a draft report available for public review and environmental processing in August of this year.

The County of Sacramento will be the lead agency for the environmental document preparation. Based upon the fact that the 2010 Sacramento Bikeway Master Plan is an update of the original Sacramento Bikeway Master Plan adopted in 1976, the County staff, in accordance with California Environmental Quality Act, will be preparing a negative declaration which will require three to six months.
