Division: Public Improvement Financing

Organization No: 4815

Summary:

Staff recommends Council adopt the budget and levy the FY 2006/07 annual assessment for the Laguna Creek Maintenance District. This district provides funding for the annual cost of wetlands and landscape maintenance. The assessments are less than the maximum amount authorized.

Committee/Commission Action: None

Background Information:

The Laguna Creek wetlands area was constructed in 1988. On April 16, 1991, the City Council approved formation of the Laguna Creek Maintenance District. The district provides funding for environmental monitoring and maintenance activities associated with the Laguna Creek Wetlands Mitigation Program. The monitoring and maintenance

work is required to comply with a Section 404 Permit (No. 9570) issued by the U.S. Army Corps of Engineers to the City of Sacramento. The adopted monitoring program identified a five to eight year monitoring period, which has been completed along with the required remediation work.

Monitoring and Maintenance Program

The Laguna Creek wetlands maintenance area includes the primary creek channel and adjacent wetlands, wetlands preserved to the south of the floodway, and adjacent turf areas. The maintenance area also includes channel improvements and wetlands located west of Franklin Boulevard, which were constructed as part of the Laguna Creek Floodway project. The work that is intended to be funded by the annual maintenance district includes:

- Maintenance and repair of irrigation systems.
- Maintenance and operation of planting basins, including fertilization, pruning, staking, turf and grassland mowing, disking fire breaks, litter control, and patrolling.
- Maintenance of bikeways and landscaping adjacent to the wetlands area.
- Unscheduled maintenance such as repair of damage due to vandalism, flood or fire, and temporary irrigation of vernal pools not wetted by natural events.
- Public outreach, including design and development of interpretive signage, education workshops, nature walks, information for the kiosk (i.e. community information center), and for wetlands articles in the North Laguna Creek Neighborhood Association newspaper.

Financial Considerations:

The cost of maintenance for the Laguna Creek Wetlands Mitigation Program, together with the landscaped areas, will be funded through the maintenance district. The total cost for FY 2006/07 is projected at \$136,230 as shown on Exhibit B, page 7, and detailed in the Engineers Report on file with the City Clerk. The maintenance district is self-supporting and has no impact on the general fund.

Environmental Considerations:

Under California Environmental Quality Act (CEQA) guidelines, annual proceedings of a Special District do not constitute a project, and are therefore exempt from review.

Policy Considerations:

The annual proceedings for this district are being processed as set forth in section 3.124.190 of the Sacramento City Code. This process is consistent with the City's Strategic Plan 3-Year Goal to "achieve sustainability and enhance livability".

Emerging Small Business Development (ESBD):

City Council approval of these proceedings is not affected by City policy related to the ESBD Program.
