SRWTP Sewer Extension (PN:ZH61)

**COMMITTEE/COMMISSION ACTION:**

None.

**BACKGROUND INFORMATION:**

This project is part of the FY 2000-2001 Capital Improvement Program.

This project consists of construction of a gravity sewer pipe in Bannon Street which will connect to Sump 133 and a pressure sewer pipe which will connect to a manhole downstream of Sump 133. Both pipes will be connected by pipelines serving the Sacramento Water Treatment Plant improvements project which will commence construction this summer. The subject pipelines must be in place first to facilitate dewatering the Sacramento River Water Treatment Plant sludge lagoons. This action is necessary so that the Water Treatment Plant Expansion project contractor has access to dry sludge lagoons to utilize as a mobilization area.

Bids were received from two (2) contractors, as follows:

- Florez Paving \$106,573
- Pfister Excavating, Inc. \$137,585

The engineer's estimated construction cost was \$114,000. The estimated completion date is July 29, 2001

**FINANCIAL CONSIDERATIONS:**

The total estimated cost including design, construction, inspection and administration is \$155,000, based on the bid of \$106,573. There is sufficient funding in the project budget to award and complete the project.

**ENVIRONMENTAL DETERMINATION:**

The Planning Services Division, Environmental Section, has reviewed the proposed project and has determined that this project is categorically exempt from the California Environmental Quality Act (CEQA) under Section 15302 (c) of the CEQA Guidelines.

SRWTP Sewer Extension (PN:ZH61)

**POLICY CONSIDERATIONS:**

This action is consistent with Title 3, Section 3.60 of the City Code concerning award of contracts.

**ESBD CONSIDERATIONS:**

This project included participation goals of 20% for emerging and small business enterprises as required by Ordinance 99-007 and Resolution 99-055, relating to ESBD participation goals and policies, adopted by the City Council on February 9, 1999. The responsive low bidder, Florez Paving, exceeded the ESBE goals with a participation level of 100%.
