Presenters: Not Applicable

Department: Planning Department

Division: Public Improvement Financing

Organization No: 4915

Description/Analysis:

Issue: The Citywide Landscaping and Lighting Assessment District ("District") is required by the California Streets and Highways Code to present to City Council an annual budget for approval. Approval of the annual budget will authorize the City to collect assessments which will partially fund the maintenance of the improvements in the District for FY2007/08.

Policy Considerations: The annual proceedings for the District are being conducted as set forth in the Landscaping and Lighting Act of 1972, California Streets and Highways Code sections 22500, et seq. This process is consistent with the City's Strategic Plan 3-Year Goal to "achieve sustainability and enhance livability".

Environmental Considerations: Under California Environmental Quality Act (CEQA) guidelines, annual proceedings of a Special District do not constitute a project, and are therefore exempt from review.

Committee/Commission: None

Rationale for Recommendation: The recommended actions in the Resolutions are required by the California Streets and Highways Code, as set forth in Section 22500 of the Landscaping and Lighting Act of 1972, for annual proceedings of an existing district.

Financial Considerations: Each year the District budget is developed taking into consideration several factors. Some of these factors include the cost of services, the projected number of parcels in each assessment category, and the amount of projected surplus/deficit in the District fund balance at the end of the current fiscal year. The proposed budget is shown on Attachment 2.

Emerging Small Business Development (ESBD): City Council approval of these proceedings is not affected by City policy related to the ESBD Program.

Respectfully Submitted by:

BACKGROUND

The Citywide Landscaping & Lighting District was established in June of 1989. The District contributes funding for the maintenance and rehabilitation of City parks and other public landscaped areas, street tree maintenance, and the energy and maintenance cost of streetlights throughout the City. Property owners are assessed in accordance with a series of benefit formulas adopted by City Council in 1989. Annual assessments are paid by property owners along with their regular County property taxes. Each year the City must update and adopt the annual Engineer's Report and approve the assessment.

The budget is arranged in three categories as described below. In addition to the maintenance activity, each category also contains a proportionate share of the administration and billing costs.

- 1) **Street Related Operations and Maintenance:** This section contains the budget for safety lighting, neighborhood lighting, median maintenance, and street tree maintenance.
- 2) **Bonded Indebtedness:** A portion of the annual District budget goes toward the payment of debt service on 20-year bonds sold in 1996 to finance park improvements. These bonds will expire after tax year 2016.
- 3) **On-going Park Maintenance, Park Improvements, and Graffiti Abatement:** This section contains the park maintenance budget, the graffiti abatement program, and funding for park capital improvement projects (CIP). The voters approved this portion in November 1996.

The Citywide Landscaping & Lighting Assessment District contains a provision for an annual adjustment in budget and assessments to account for inflation. The district allows for an annual increase based on the Consumer Price Index (CPI), San Francisco area, all items, but not to exceed 3% in any year. The April 2007 CPI is 3.32% over the prior 12 months. Therefore, the rate increase for FY2007/08 will be 3.0% which is the maximum allowed.
