1/ This column represents the amount available for investment for each category derived by adding to or subtracting from the previous period's balance all investment income (interest, dividend, gains, losses, etc.) and all contribution transfers.

2/ This column represents the variance between the amount available for investments (column 4) and the amount authorized as percentage of the total assets (column 6). As a result of Board action taken February 27, 1984 investment asset diversification was accomplished in compliance with Board direction. Such direction requires the City Treasurer to recommend asset reallocation policy every 6 months, at which time adjustments will be made to investment asset classification in compliance with Board Directives. Therefore, please disregard the over and under investment column as it has
