DAVID A. PELSER  
SOLID WASTE  
DIVISION MANAGER

May 30, 1990

Budget and Finance Committee  
Sacramento, California

Honorable Members in Session:

**SUBJECT: PROPOSED SOLID WASTE SERVICES FEE ADJUSTMENTS FOR 1990-91**

**SUMMARY**

This report recommends the adoption of rate increases in fees for the solid waste services in fiscal year 1990-91 to be effective July 1, 1990. It is recommended that residential and commercial can rates be increased 9%. It is also recommended that compost sales rates be increased and that a new rate be established for the rental of a 4 cubic yard bin. Further, it is recommended that rental rates for City bins be reduced to reflect actual costs. There is no rate increase for commercial or residential bin waste collection services.

**BACKGROUND**

The Solid Waste Fund is an enterprise fund which is financially responsible for the activities of waste reduction and recycling, collecting and disposing of solid waste, sweeping streets, and abating litter throughout the City. These functions are performed by the operational units of Refuse Collection, Garden Refuse, Street Sweeping, and Landfill Operations. The enterprise fund resources are supplied by two primary sources: Refuse collection fees and the Lawn and Garden Excise Tax. Since the Lawn and Garden Excise Tax is currently fixed at \$2.00, all cost increases associated with the lawn and garden program are included in the refuse collection fees.

In October 1986, staff presented to the Budget and Finance Committee the results of a comprehensive review of the Solid Waste Fees. The report indicated that all fees were sufficient to cover basic cost of garbage collection and disposal service. However, most residential can fees were not enough to cover the cost of the subsidy for garden refuse pickup, street sweeping, neighborhood cleanup, special weekend

cleanups, code enforcement assistance, household hazardous waste collection, and disabled exemptions. Correspondingly, other fees carried a disproportionate burden to cover the revenue shortfall. In addition to these programs, in the near future, waste reduction and recycling programs will also be funded by solid waste services fees.

The October 1986 report recommended that fees be adjusted over several years to gradually reflect an equitable distribution of costs. The 1987-88, 1988-89, and 1989-90 solid waste fees followed these guidelines by assigning fee increases to those residential services which were under funded while holding constant the fees for fully funded commercial services. The only remaining category of services that continues to subsidize residential can rates are the residential bins.

**ANALYSIS**

Garden Refuse Collection. The garden refuse collection service provided to residents is funded by the Solid Waste Fund at a total FY 90-91 cost of \$5.9 million. This amounts to \$5.68 per residential customer account (90 gallon can). The Lawn and Garden Excise Tax of \$2.00 per residential can account covers a portion of this cost, but the remaining \$3.68 must be subsidized by the residential can and residential bin fees.

Residential Garbage Can Collection Service. Residential garbage collection fees cover the costs of garbage collection, disposal and additional programs including: garden refuse (that portion not covered by the lawn and garden tax), street sweeping, code enforcement, neighborhood clean-up, special weekend clean-ups, and household hazardous waste disposal. In order to cover the increasing costs of these services, a 9% increase in residential can rates is needed. Specific areas of cost increase for the coming year are:

Operating Cost Increases:	7%
New State Landfill Taxes	\$358,000
Landfill Cover Material	\$323,000
Additional Staff (1.5 FTE) and Related Supplies	\$ 93,000
Upgrade Garden Refuse Dump Truck from 4 yd to 10 yd	\$ 46,000
Decrease in Solid Waste Equipment	(\$582,000)
Cost of Increase in Existing Labor/Other Increases	\$531,000
Capital Improvement Program Decreases, Deletion or Deferral of:	(24%)
YA66 Bin Maintenance Facility	\$266,000
YA36 Landfill Gas Recovery	\$470,000
YA06 Landfill Closure Guarantees	\$494,000
And additional Revenue from Gas Recovery Systems Refund	\$ 87,000
Increases to Fund Required 4% Contingency	<u>26%</u>
<b>NET INCREASE NEEDED</b>	<b>9%</b>

Budget and Finance Committee  
May 30, 1990

This 9% increase will effect the typical residential customer ("Autolift" 90 gallon can garbage service plus lawn and garden tax) as follows:

<u>Service</u>	<u>Proposed 90-91 Monthly Cost</u>
Garbage Collection and Disposal	\$ 6.83
Street Sweeping	.50
Nuisance Abatement	.19
Neighborhood Clean-up	.72
Household Hazardous Waste Collection	.08
Garden Refuse (Cost of Service Over Tax and and Other Subsidy)	1.64
Lawn and Garden Tax	<u>2.00</u>
Total	\$11.96

Commercial Garbage Can Collection Service. A 9% increase is also proposed for commercial garbage can collection in order to cover the increased costs detailed above.

Residential and Commercial Bin Rental Rates. Staff recommends the addition of a new rate for the rental of a 4 cubic yard bin for commercial customers. Previously, only 1 cubic yard, 2 cubic yard and 3 cubic yard bins have been available for rental from the City. Customers desiring 4 cubic yard bins have had to rent them from private companies.

Further, staff has reviewed the rental rates for City owned bins and has determined that the actual cost of purchasing, delivering, and repairing City owned bins is, on the average, about 40% less than the bin rental rates which have been charged during the last several years. Immediately correcting this discrepancy could result in either a revenue loss or a required increase in the basic collection service rates. Therefore, we are recommending that the bin rental rates be reduced 10% this year and in subsequent years until the rate equals the cost of bin rentals. This will result in an initial revenue loss of approximately \$24,000 to be offset by new subscribers to City bins when the rates are more competitive with the private sector. In future years when rate increases are again applied to commercial customers, these rates can be adjusted to cover the rental rate reduction.

No increase is needed on commercial or residential bin rates.

Compost Sales. The proposed budget contains \$75,000 to expand the existing compost program. This money will fund one full-time employee, increased use of the tub grinder and power screen to make more product, and a teaching display on backyard composting as recommended by the R.W. Beck yard waste recycling report.

City compost rates have remained the same for several years. Based on our increased experience in yard waste compost operations and marketing, staff recommends revisions to the compost rate schedule. The proposed revisions are designed to better reflect the high quality of compost being sold, the market demand

for the material, and to provide a schedule of prices that reflects the quantity and quality of material being sold.

Small quantity sale prices (5 or less cubic yards) are requested to be increased by \$2.00, from \$8.00 to \$10.00 per cubic yard for the highest (grade A) quality compost. The proposed price schedule provides for quantity discounts which are recommended for large purchases. Also, the schedule provides for slightly reduced prices for the lower quality (grade B) compost. The quality grades are usually distinguished by the size of particles resulting from final screening. However, other factors can influence the quality including climatic variations, source material variations, degree of decomposition, amount of contaminants, etc. These factors will be taken into consideration when determining the quality grade.

Proposed Compost Prices FY 90-91

<u>Quantity</u>	<u>\$/CY Grade A</u>	<u>\$/CY Grade B</u>
0 - 5 cubic yards	\$10.00	\$ 8.00
6 - 15 cubic yards	10.00	7.00
16 - 60 cubic yards	9.00	6.00
61+ cubic yards	8.00	5.00

FINANCIAL DATA

The proposed fee schedule for all solid waste services is attached as Exhibit A. The effect of the proposed fee adjustments for typical services are:

	<u>Current Rate</u>	<u>Proposed Rate</u>	<u>Change</u>	<u>% Increase</u>
Curbside (32 gal)	9.97	10.87	0.90	9%
Backyard (32 gal)	19.81	21.59	1.78	9%
Auto-lift (90 gallon) Container	9.14	9.96	0.82	9%
Commercial Bins	varies	varies	0.00	0%
Bin Rental	varies	varies	varies	(10%)

The proposed increases in the solid waste service fees are expected to generate \$1,133,000 in additional FY90-91 revenue to the Solid Waste Fund. Total revenue from the solid waste service fees is projected to be \$19,131,000.

POLICY CONSIDERATIONS

Fees for the removal of garbage, rubbish, weeds and waste matter are established by resolution of the City Council pursuant to Section 19.108 at the Sacramento City Code.

Budget and Finance Committee  
May 30, 1990

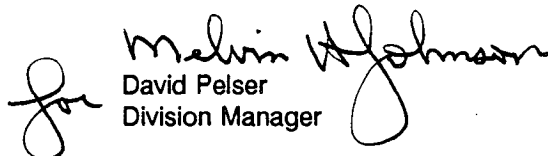

**MBE/WBE EFFECTS**

Not applicable.

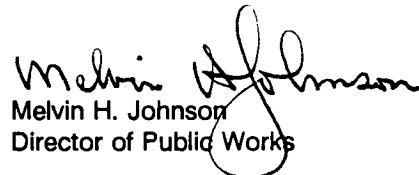

**RECOMMENDATION**

It is recommended that the Budget and Finance Committee approve an increase to the residential and commercial can rates of 9% and increase the compost sales rates and make other minor changes in the solid waste service charges and forward to the City Council the attached resolutions containing findings and amending the City of Sacramento Fee and Charge Report for final adoption.

Respectfully Submitted,

ADOPTED BY THE SACRAMENTO CITY COUNCIL

ON DATE OF \_\_\_\_\_

## RESOLUTION OF FINDINGS OF INCREASED SOLID WASTE SERVICES FEES

**WHEREAS**, the Joint Transportation and Community Development/Budget and Finance Committees have held a public hearing on solid waste services fees on May 30, 1990, at which staff made a presentation including a report and at a public hearing was held and said committee recommended adoption of an increased solid waste services fee schedule, and

**WHEREAS**, the City Council on May 30, 1990 at a regular public council meeting, received the following information:

- (1) A staff report on the proposed increased solid waste services fees;
- (2) Oral presentation by City staff;
- (3) Public testimony from interested parties.

**NOW THEREFORE**, based on this data and all information part of the public record of this matter, the City Council makes the following findings to comply with Government Code section 210809(b)8 to establish that the passing of the increased solid waste services fees of even date herewith serves the following purposes:

- (1) The solid waste services fees will provide funds to meet operating expenses.
- (2) The solid waste services fees will permit the generation of necessary cash flow to finance maintenance of the solid waste management system and meet financial reserves requirements.
- (3) The solid waste services fees will permit the purchase of necessary equipment for the solid waste management system.

---

FOR CITY CLERK USE ONLY

RESOLUTION NO.: \_\_\_\_\_

DATE ADOPTED: \_\_\_\_\_

- (4) The solid waste services fees are essential as a source of funds for capital projects necessary to maintain the solid waste management system.

**NOW THEREFORE**, based on this information and the public words, the Council of the City of Sacramento makes the specific finding contained herein as well as all other matters in the public record as it basis for the resolution establishing the fees passed on even date herewith.
