Re: Northborough – Plan 1960 Detail Revision (Job #99028)

To whom it may concern:

This letter is to verify that for the above referenced plan, detail 436 is to be removed from the right side of the entry. A letter from our office dated March 9, 2000 incorrectly stated that detail 447 was to be removed from the right side of the plan. Detail 447 is to be installed.

If there are further questions, please contact Tim Sloan at (916) 726-0612.

Re: Northborough – Various Items (Job #99028)

To whom it may concern:

This letter is to verify that this office has addressed the following items:

Plan 1960:

1. The shear on detail 409 may be installed to either face of the truss – provided that the shear is edge nailed to the top chord of the truss a nailed to blocking between the truss verticals.
2. Install (2) H2.5 clips to truss T07 (6900# drag) at the cantilevered end to the top plates below. These clips eliminate the need for the H7 clip at the cantilevered end.

Plan 2406, 2492:

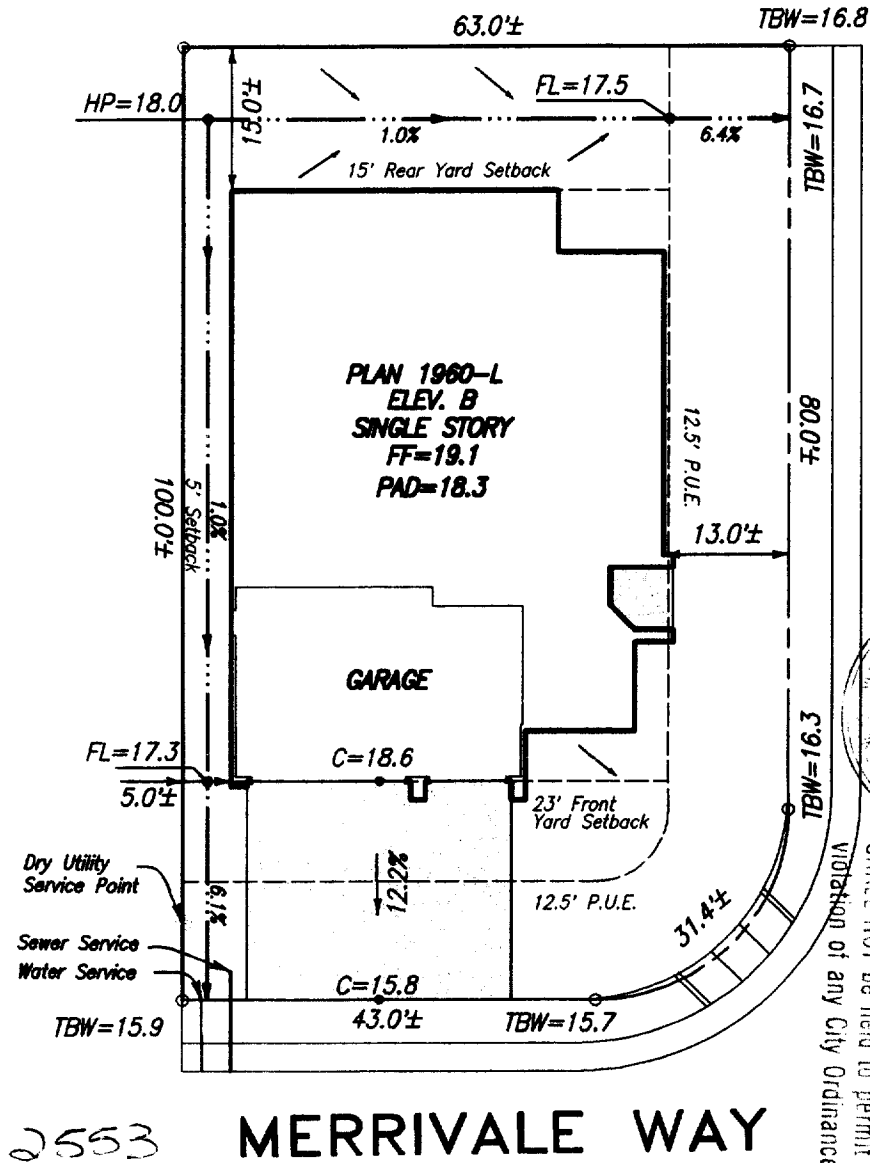

1. A 4x6 is required at HD-10A holdowns (Type 15), not a 6x6 as specified on the foundation sheet.
2. Move the 4' Type 3 at the hallway to the garage wall. This revision is required due to the hallway width increasing.

If there are further questions, please contact Tim Sloan at (916) 726-0612.
