Honorable Mayor and
Members of the City Council

Title: Sewer System Management Plan - Development Plan and Schedule

Location/Council District: Citywide

Recommendation: Adopt a **Resolution** approving the Sewer System Management Plan - Development Plan and Schedule to comply with the State Waste Discharge Requirements for the City separated sewer collection system.

Contact: David L. Brent, Engineering Manager, 808-1420; Bill Busath, Supervising Engineer, 808-1434

Presenters: N/A

Department: Department of Utilities (DOU)

Division: Engineering Services

Organization No: 3333

Description/Analysis

Issue: As required by the State, the City has coverage under the recently adopted Statewide General Waste Discharge Requirements (WDR), Order No. 2006-0003, for all publicly owned sanitary sewer collection systems. Among other things, the WDR requires publicly owned collection systems to develop and implement a Sewer System Management Plan (SSMP) to eliminate sewer overflows; and to approve at a public meeting the Development Plan and Schedule for preparing the SSMP. Adoption of the attached resolution satisfies this WDR requirement.

Policy Considerations: Compliance with the WDR, specifically, the requirement to eliminate sanitary sewer overflows, is consistent with the City Council focus areas of public safety, economic development, and sustainability and livability.

Environmental Considerations: This report concerns administrative activities that will not have any significant effect on the environment and that do not constitute a "project" as defined by the California Environmental Quality Act (CEQA)[CEQA Guideline Sections 15061(b)(3); 15378(b)(2)].

RESOLUTION NO.

Adopted by the Sacramento City Council

SEWER SYSTEM MANAGEMENT PLAN - DEVELOPMENT PLAN AND SCHEDULE

BACKGROUND

- A. On May 2, 2006 the California State Water Resources Control Board (SWRCB) adopted Statewide General Waste Discharge Requirements (WDRs). Order No. 2006-0003, for all publicly owned sanitary sewer collection systems.
- B. The City applied for coverage under the WDR on November 2, 2006 for the separated sewer collection system.
- C. The WDR require publicly owned collection systems to prevent sanitary sewer overflows (SSOs), develop a Sewer System management Plan (SSMP) to eliminate SSOs, and comply with reporting requirements. In addition, the agency governing board is required to approve at a public meeting the Development Plan and Schedule for preparing the SSMP.
- D. Adoption of the proposed Sewer System Management Plan - Development Plan and Schedule (Exhibit A) will satisfy the WDR requirement.

BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE CITY COUNCIL RESOLVES AS FOLLOWS:

Section 1. The Sewer System Management Plan – Development Plan and Schedule at Exhibit A is approved and adopted.

Table of Contents:

Exhibit A Sewer System Management Plan - Development Plan and Schedule

Exhibit A

Development Plan and Schedule – City Separated Sewer System Management Plan	
Main Task	Due Date
SSMP Development Plan and Schedule	August 2, 2007
Goals and Organizational Structure	November 2, 2007
Overflow Emergency Response Plan	November 2, 2008
Legal Authority	November 2, 2008
Operation and Maintenance Program	November 2, 2008
Fats, Oils and Grease Control Program	November 2, 2008
Design and Performance	May 2, 2009
System Evaluation and Capacity Assurance Plan	May 2, 2009
Monitoring and Program Modifications	May 2, 2009
Program Audits	May 2, 2009
Communication Program	May 2, 2009
Final SSMP, incorporating all of the SSMP requirements	May 2, 2009
