

**APPLICATION FOR PERMIT TO BUILD**

Street No. 2614 Stockton Lot 14 & 15 Block Stockton B.

Owner Wm. J. Fehd Address 2614 Stockton St.

Architect \_\_\_\_\_ Address \_\_\_\_\_

Contractor \_\_\_\_\_ Address \_\_\_\_\_

Kind of Building Frame 2 1/2 Story

Permit 14166

Date 5/1/23

District 4

**Foundation**

	Girder		Span		Mud Sills	
	1st Floor	2nd Floor	3rd Floor	4th Floor	5th Floor	6th Floor
Joists						
Max. Span	Determined					
Bearing Partitions						
Non Bearing Part'ns						
Story Height	8' 6"		11' 3"		Complete	
Outside Walls						
Ceiling Joists			Span			
Roof			Rafters			
Water Heater			Chimney			
Size of Building—Length			Width		Height	

It is hereby agreed that this building will be constructed in conformity with the Ordinances of the City of Sacramento and the Laws of the State of California.

Estimated Cost, \$ 157,000

Plans must be submitted

E. E. Wood  
Owner or Owner's Representative.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in the context of public administration and government operations. The text notes that without reliable records, it becomes difficult to track the flow of funds, resources, and information, which can lead to inefficiencies and potential misuse of public resources.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It mentions the use of surveys, interviews, and focus groups to gather qualitative and quantitative information. The text also discusses the importance of using statistical software and data visualization techniques to present the findings in a clear and accessible manner. The author highlights that while these tools are valuable, they must be used responsibly and ethically, ensuring that the data is collected and analyzed in a way that respects the privacy and rights of the individuals involved.

3. The third part of the document focuses on the challenges and limitations of data collection and analysis. It points out that gathering accurate and complete data can be a difficult and time-consuming process, especially in large-scale or complex environments. The text also notes that there are often various biases and errors that can affect the reliability of the data, such as sampling bias, non-response bias, and measurement errors. The author suggests that researchers should be aware of these limitations and take steps to minimize their impact on the results.

4. The fourth part of the document discusses the ethical considerations surrounding data collection and analysis. It emphasizes the need to obtain informed consent from participants and to ensure that their data is used only for the purposes stated in the research protocol. The text also mentions the importance of protecting the confidentiality and anonymity of the data, particularly when it contains sensitive or personally identifiable information. The author stresses that ethical conduct is not only a moral obligation but also a legal requirement in many jurisdictions.

5. The fifth and final part of the document provides a conclusion and offers some recommendations for future research. It reiterates the importance of rigorous and ethical data collection and analysis practices and suggests that ongoing research is needed to develop more effective and efficient methods for gathering and analyzing data. The author also encourages researchers to share their findings and to collaborate with others in the field to advance the state of knowledge and practice.
