Re: Support for Floor Beam 'FB4': Plan 3377 – Northborough Village 8-4  
O'Connor Freeman Job Number: E020611

Dear Chris:

You contacted our office regarding the support of floor beam 'FB4' in Plan 3377 in the Northborough Village 8-4 subdivision. Specifically, the framer made a slight field adjustment to the support of floor beam 'FB4'. See the copy of your fax illustrating this field adjustment for reference and review. Based upon this field condition, you wanted to know if the as-built framing condition is acceptable. After reviewing the structural calculations, we determined the as-built support condition for floor beam 'FB4', 'FB5' and 'FB6' will provide more than adequate bearing support for the applied tributary loads. Therefore, the as-built support for floor beams 'FB4', 'FB5' and 'FB6' is acceptable.

If you should have any further questions or comments please do not hesitate to call.

Sincerely,

**O'Connor Freeman & Associates, Inc.**
