Just an FYI on the above address. (This appears to be a structure that started out as a "remodel" and wound up with a whole new foundation.)

A customer came to the Utilities Customer Service counter with a copy of an inspection report you had done for the above address.

The report indicated the owner will need to provide a water meter or get clearance from the Dept. of Utilities that a meter is not required.

I just wanted to let you know I advised that customer that a meter is required. According to PermitsPlus a meter was purchased in April of 2001.

I advised the customer that he was responsible for installing the box, yoke and fitting. I gave him a detail drawing to assist him.

He seemed reluctant to dig up his new driveway which he appears to have poured over his service.

Since it was kind of odd, I thought I would let you know what Customer Service advised him.

If you have any questions, you can reach me at 264-7025.

Thanks,
Sherrie Gentry
