21. Estimated Time: 1 hour and 30 minutes Transmittal of Citywide Financial and Operational Review Final Report

Comments

Charles Maas, MD, cwmaas@pol.net, 3411 Ellenmere Drive, Sacramento , Ca, 95821

Position: Oppose

Comment: I oppose the elimination of flouridation in Sacramento. Flouridation of Sacramento's water is one of the most important public health measures a community can have. Sacramento needs to remain proud of its flouridated water system. Stopping flouridation would be a step backwards and Sacramento would be the first city to do this in the US.
