This report transmits the work completed that day and recommends approval of the results as the updated City Strategic Plan.

Committee/Commission Action: None.

Background Information:

The City Council and Charter Officers held a daylong retreat on July 26, 2005. The agenda included:

- Review the mission/purpose statement, vision statement, core values/guiding principles and three-year goals (2005-2008).
- What are the strengths of the City of Sacramento and the accomplishments since the January 25, 2005 Strategic Planning Retreat?
- Internally, what is not going as well as you would like? How is the team working together? What's working, what's not working?
- What are the external factors/trends that will/might have an impact on the City in the coming year – positively (opportunities) and negatively (threats).
- Review and revise, if needed, the Three Year Goals (what needs to be accomplished)?
- Identify six-month Strategic Objectives (how the goals will be addressed – by when and who will be accountable, for what specific, measurable results) for each of the goals?
- Next Steps/Follow-up Process to monitor progress on the Goals and Objectives
- Transition to new City Hall – what worked, what issues remain

As one of the follow-up steps, the Mayor/Council directed that the updated Strategic Plan be distributed and presented to the community in public session. Exhibit A of this report provides the detailed results of the retreat. No changes were made to the City's mission, vision and core values. No changes were made to the Three Year Goals with the exception of revising the goal of 'Achieve sustainability and livability' to include 'enhance' and read as 'Achieve sustainability and **enhance** livability'.

The strategic objectives identified for each of the three-year goals are included in Exhibit A. Staff will return with a report back at the end of August 2005, as directed by the Mayor/Council, with any revisions to the timelines for each objective. In that same report, staff will present a comparison of the objectives and the "What's Not Going As Well as You'd Like" lists from the January 2005 retreat and July 2005 retreat to reconcile any outstanding items.

Staff will also bring a progress report on achieving the objectives each month to the Mayor/Council.
