MINUTES:

Doug Holmen, Associate Planner, explained that the receivership program was recommended by the Housing Element Task Force and endorsed by the City Council. Mr. Holmen told the committee that, following passage of State enabling legislation, receivership allows a court to appoint a receiver to take control of unsafe property and draw upon rents and profits to pay for needed repairs. Mr. Holmen stated the Sacramento Valley Apartment Association is in favor of the program.

Bob Wall, Assistant Director of Planning and Development, stated that receivership would not expedite the dangerous buildings enforcement program, but would provide a little more of a "hammer" to use on recalcitrant owners.
