POLICY MATTERS TO BE CONSIDERED

SCERS ASSET ALLOCATION AND DIVERSIFICATION 1991
APPROVED

The Board received and considered a report prepared and submitted by Thomas P. Friery, City Treasurer, Vice Chair, and Michelle Stenoski, Investment Officer, recommending changes to the asset diversification in order to implement the Asset Diversification Policy approved by the Board January 22, 1990 (Resolution No. 90-002) and the subsequent review of the performance of all equity managers. Mr. Friery and Ms. Stenoski reviewed the report and the recommendations with the Board.

In accordance with the current Board policy the equity exposure must be reduced 2% each January 1 until the equity portion of the fund is reduced to 30% and the fixed is increased to 70%, which is to be accomplished in five years. The Board discussed several options on how to reallocate the equity to accomplish the 2% reduction.

The Board had an in depth discussion on the Board's investment objectives and the performances of all the external equity managers, especially the performance of Batterymarch. The Board is extremely disappointed with Batterymarch's performance as it has fallen short of the

The Board also discussed the possibility of entering into another securities investment program; however, based on Mr. Friery's opinion, the Board decided to consider this issue at a later date.

To accomplish the 2% reduction in equities, Mr. Crist moved that equity manager be reduced by .40%. The motion was seconded by Mr.

No vote was taken as Mr. Crist withdrew his motion after Ms.

recommended the following:
