ESTIMATED COST, \$

Plans must be submitted

J. W. Baker
.....
Owner or Owner's Representative.

1. The first part of the document is a letter from the author to the editor, dated 10/10/1964. The letter discusses the author's interest in the subject of the article and mentions that the author has been working on this topic for some time. The author also mentions that the article is based on a series of experiments that have been conducted over the past few years.

2. The second part of the document is the abstract of the article. The abstract states that the author has conducted a series of experiments to determine the effect of a certain factor on the rate of a chemical reaction. The results of the experiments show that the rate of the reaction increases as the concentration of the factor increases. The author also mentions that the results of the experiments are consistent with the predictions of a certain theory.

3. The third part of the document is the introduction of the article. The introduction discusses the importance of the subject of the article and mentions that the author has been working on this topic for some time. The author also mentions that the article is based on a series of experiments that have been conducted over the past few years.

4. The fourth part of the document is the main body of the article. The main body of the article discusses the results of the experiments and mentions that the rate of the reaction increases as the concentration of the factor increases. The author also mentions that the results of the experiments are consistent with the predictions of a certain theory.

5. The fifth part of the document is the conclusion of the article. The conclusion states that the author has conducted a series of experiments to determine the effect of a certain factor on the rate of a chemical reaction. The results of the experiments show that the rate of the reaction increases as the concentration of the factor increases. The author also mentions that the results of the experiments are consistent with the predictions of a certain theory.
