Description/Analysis

Issue: The proposal is to rezone two parcels from the Standard Single Family (R-1) zone to the Single Family Alternative (R-1A) zone. The two parcels are located at the northeast corner of J Street and Mission Way and total 81 feet by 131 feet (0.24± acres). The rezone allows the development of two half-plex units on four lots (four residential units).

Policy Considerations: The proposed project is consistent with the following land use designations and applicable policies of the General Plan. The applicable policies include: "To promote infill development as a means to meet future housing needs," "Develop residential land uses in a manner which is efficient and utilizes existing and planned urban resources," and "Provide a variety of housing densities, types and prices to enhance a neighborhood identity."

Smart Growth Principles: City Council adopted a set of Smart Growth Principles in December 2001 to promote growth or sustain existing development that is economically sound, environmentally friendly, and supportive of community livability. The subject proposal complies with the applicable guiding principles:

- Promote developments that foster accessibility and connectivity between areas and safely and efficiently accommodate a mixture of cars, transit, bicyclists and pedestrians.
- Create housing opportunities that promote a diversity of household types and housing choices for residents of all ages and income levels.
- Use the existing assets of infrastructure and public facilities to increase infill and reuse, while maintaining important qualities of community character.

Strategic Plan Implementation: The project conforms with the City of Sacramento Strategic Plan, specifically by advancing the goals to achieve sustainability, enhance livability, and increase opportunities for all Sacramento residents to live in safe and affordable housing.

Committee/Commission Action: On November 9, 2006, by a unanimous vote of six ayes and two absent, the Planning Commission approved the Tentative Map and Special Permit and recommended approval of the Rezone.

Environmental Considerations: The project will not have a significant effect on the environment and is exempt from environmental review pursuant to California Environmental Quality Act Guidelines, Section 15332 Infill Development.

Rationale for Recommendation: The project is consistent with the objectives of General Plan policies that create housing opportunities that promote a diversity of household types and housing choices for residents of all ages and income levels, uses the existing assets of infrastructure and public facilities to increase infill and reuse, while maintaining important qualities of community character, and the design is compatible with the area.

Financial Considerations: The project has no fiscal considerations.

Emerging Small Business Development (ESBD): No goods or services are being purchased under this report.

The proposal is to rezone two parcels from the Standard Single Family (R-1) zone to the Single Family Alternative (R-1A) zone. The two parcels are part of an approved six lot Tentative Map and Special Permit to allow development of two half-plex units on four lots at the northeast corner of J Street and Mission Way.

The two parcels requested to be rezoned will become five lots, four which front on J Street and a common area lot fronting Mission Way. The main purpose of the common area lot is for reciprocal vehicle access to the rear of the four lots because there is no vehicle access from J Street. The sixth lot is not proposed to be rezoned and will maintain the Standard Single Family (R-1) Zoning.

The project site is currently vacant. The project site has never been developed with anything other than a single-family residence. A single-family residence was built on the site in 1925. The structure was not considered a historically significant structure and was demolished in July 2006. No other entitlements have been proposed for the site.

The applicant presented the project to the McKinley East Sacramento Neighborhood Association and the East Sacramento Improvement Association. Both groups support the project.

A public hearing for the project has been noticed by publication and mail for February 06, 2007 pursuant to Sacramento City Code section 17.208.020(C).
