Honorable Members In Session:

**SUBJECT:** Sacramento River Water Treatment Plant - Purchase of  
Adjoining Parcel (APN 001-0064-015-0000)

SUMMARY

This report recommends that \$180,000 be appropriated and expenditures authorized to cover the acquisition of a 1.6 acre parcel adjoining the Sacramento River Water Treatment Plant.

BACKGROUND

Consideration has been given to long-range development in the area of the treatment plant and to the current and projected needs of the City for additional land adjoining the plant. Purchase of property, as it becomes available on the market, allows some flexibility in price negotiation and will avoid the possibility of future eminent domain proceedings.

The subject parcel is adjacent to the water treatment plant on North B Street. The owners, CARCO, a California general partnership and John B. Bowker & Associates, Inc., a California corporation, have had this property listed for sale for some time for \$175,000. We have had the property appraised by Howard Pearson, an independent M.A.I. appraiser. He has confirmed that this is the current market value. The owners have agreed to sell the property to the City for \$175,000, and are awaiting Council approval to complete the transaction.

RECOMMENDATION

It is recommended that the Budget and Finance Committee approve the appropriation and expenditure of funds and forward this report to the full City Council for adoption of the attached resolution.

Respectfully submitted,
