Law and Legislation Committee  
Sacramento, California

Honorable Members in Session:

Subject: Revision of City Towing Policy

**SUMMARY**

The attached report describes recommended changes in the City's towing policy which will establish a regulatory program. It is requested that the Law and Legislation Committee recommend that the City Council adopt:

1. The attached ordinance relating to City tow service regulation.
2. The attached resolution establishing the annual permit fees authorized by the ordinance.

**BACKGROUND**

a. General Policy: All Tows within City Limits

As a result of consumer concerns, the Law and Legislation Committee directed that staff review the City's towing policy to establish zoning standards, performance, response time, fees for service, and recovery standards which would benefit its constituents. It was intended that the results of this effort would be incorporated into a regulatory ordinance.

b. City Initiated Tows

Current implementation difficulties connected with the City-initiated tow program were considered as staff studied the City's overall towing policies. The City is now divided into three districts, served by a total of eighteen towing companies. District 1 is comprised of all of the area within city limits that is north of the American River. District 2's boundaries cover the City's limits south of the American River and north of Highway 50, while District 3 contains all of the area south of Highway 50. A service roster is maintained for each district and companies are called for city-initiated tows on a rotational basis. Typically, calls for service entail the removal of vehicles involved in accidents, illegally and/or hazardedly parked, abandoned, and/or other reasons pursuant to state

and local regulations. Separate rotational lists are maintained for motorcycle, heavy-equipment, and/or police evidence tows.

Each of the companies within a district is required to sign a tow services agreement which outlines their duties and responsibilities under the terms of the contract. Violations of the service agreements are the responsibility of the Police Department's Office of Administrative Services. Appropriate action can be taken to revoke a service contract should its terms not be followed.

## ANALYSIS

### a. Operators/City Task Force

In order to adequately address this project, a Towing Task Force was formed, comprised of staff from the Mayor/Council Office, the Assistant City Manager, the Citizen Assistance Officer, the Revenue Officer, and Police and General Services Departments. In addition, participation was sought from representatives of the eighteen towing operators currently on the City's rotational list. Members went over the City of Sacramento's existing service agreements and contrasted existing City enforcement procedures with those followed within the unincorporated areas of Sacramento County.

### b. General

A meeting was held with representatives from the California Highway Patrol, the County Planning Department, and the County's Assessor's Office for the purpose of reviewing the regulatory and enforcement procedures used by these agencies for tow services. The contrast between outside agencies and the City was quite startling. For the most part, the City of Sacramento is doing nothing to regulate towing services. There are currently no City regulations which establish site requirements for towing services or even ensure that the businesses' tow trucks meet applicable highway patrol standards. The various company representatives encouraged City staff to develop regulatory standards which were equivalent to those in force within the County. In addition, the various County and State representatives indicated that once the City's regulatory program was in place, they would attempt to coordinate reciprocal enforcement efforts.

### c. Legal Requirements

The City Attorney's Office review of this matter has indicated that a regulatory ordinance will be necessary in order to implement a more aggressive enforcement program. The features of this ordinance are discussed in more detail in the "Implementation" section of this report and the proposed ordinance is attached for review and approval.

## IMPLEMENTATION

### a. Geographical Realignment

The Task Force has proposed that the existing three geographical districts should be retained, with a revision to District 3. The revised District 3 would encompass all of the area within City limits that is south of Highway 50 and west of Highway 99. The new District 4 would be comprised of all of the area south of Highway 50 and east of Highway 99. This will not negatively impact the existing program as the current District 3 is already serviced by 10 vendors, who would be evenly distributed within the new geographical alignment (five would be in the reconstituted District 3 and five are located within the boundaries of the proposed District 4.).

### b. Policy Revisions - Zoning

As a part of revising the general policies governing tows within City limits, staff also made changes in the City's zoning ordinance in order to better define site qualifications for these types of businesses. These changes in the City's Comprehensive Zoning Ordinance were reviewed by the Planning Commission on October 23, 1986 and include the following revisions:

1. Definition of Towing Services - "Towing Service" has been added to the list of Zoning Ordinance definitions. A Towing Service is defined as "the business of towing motor vehicles for compensation in the City by means of a tow car. A towing service includes the dispatching of tow cars as well as the reception of tow car dispatches and is not a permitted home occupation." In addition, the terms "towing service vehicle storage yard" and "tow car" are defined as a part of the zoning ordinance.
2. Site Regulations Defined - Site regulations related to towing services are added to the comprehensive zoning ordinance. These include such requirements as providing a minimum 10 foot wide landscape setback along all street frontages; adequate lighting as determined by the Planning Director; outdoor storage area improvements such as having all outdoor storage areas screened by a minimum six foot high solid fence or masonry wall and surfacing with two inches of compacted asphaltic paving; installation of fire access lanes; minimum customer parking; proper building elevations; and proper instructional signage. The enactment of this ordinance does not affect pre-existing legal businesses which do not conform with its new requirements. However, proposed expansions of or additions to legal non-conforming uses will require Planning Commission approval, unless the site is brought up to the zoning ordinance standards. This approach is consistent with that taken in connection with all other changes to the Comprehensive Zoning Ordinance.

C. Policy Revisions - Towing Regulation

The new towing regulatory ordinance which is being proposed incorporates features similar to the City's taxicab ordinance. The pertinent features of the towing ordinance include:

1. Defining "Towing Service", "tow car", and "towing service vehicle storage yard" for the purposes of applying the ordinance.
2. Defining and describing the requirements of the vehicle permit process.
3. Defining and describing the requirements of the employee permit (or driver permit) process.
4. Listing posting and insurance requirements along with the procedures which will be used to deny, revoke, or suspend a permit and the process for appealing the same.

A supplemental resolution which establishes the fees for these services is also attached. The basic charges which have been set include:

1. Employee (driver) permit - A service charge of \$20 annually will be collected, along with a one-time Police Department fingerprinting/Department of Justice processing charge.
2. Tow car vehicular permit - An annual fee of \$100 will be collected for the first vehicle, with the presentation of an inspection certificate which establishes that the vehicle has been inspected in compliance with the City's criteria. For each additional vehicle, a permit fee of \$10 will be imposed, if an inspection certificate is presented which establishes that the vehicle has been inspected in compliance with the City's criteria. If the City conducts the vehicle inspection, an annual fee of \$80 per vehicle will be charged.

d. Consumer Protection

Recent legislation has been passed on the state level which should enhance consumer protection in connection with all towing services. However, the new law specifically affects only those tows from private property. Specifically, Chapter 1335, Statutes of 1985:

- o Requires acceptance of bank credit cards as well as cash.
- o Defines as excessive any private tow fees greater than the charges made for a comparable law enforcement tow.
- o Indicates that persons charged excess fees can collect for up to four times the amount charged.

- o Limits the "show-up" service charge to twenty dollars when vehicles are not towed because the owner returns before the tow is affected.

The state's efforts to provide more general "consumer protection" will continue to be monitored by City staff and an informational program can be developed to inform local constituents about their consumer rights, as appropriate.

#### RECOMMENDATION

It is requested that the Law and Legislation Committee recommend that the City Council adopt:

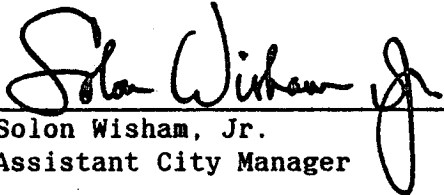

1. The attached ordinance relating to City tow service regulation.
2. The attached resolution establishing the annual permit fees authorized by the ordinance.

Respectfully submitted,

Monika Hudson  
Sr. Administrative Services Officer

Provided, however, that the permit shall be denied upon any of the grounds specified in this subsection (3) only if, in the opinion of the Chief of Police, contained in a recommendation to the Director, the crime or act is substantially related to the qualifications, functions or duties of a tow car owner or owner of a business which operates tow cars. However, no person shall be denied a permit solely on the basis that he has been convicted of a felony if he has obtained a certificate of rehabilitation under State Penal Code Sections 4852.01, et seq., or that he has been convicted of a misdemeanor if he has met all applicable requirements of the criteria of rehabilitation developed to evaluate the rehabilitation of a person when considering the denial of a license under State Penal Code Section 482(a).

(2) Such owner obtains a comprehensive liability insurance policy executed by an insurance company authorized to do business in the State of California by the Insurance Commissioner of the State of California of not less than \$500,000 single limit per occurrence, coverage to commence at the amount of said deposit. The City of Sacramento, its officers, agents and employees shall be named insureds, and said policy shall operate as primary insurance and no other insurance effected by the City of Sacramento, its officers, agents or employees, or other named insured shall be called upon to contribute to a loss covered thereunder. Said policy shall contain an endorsement that the insurance company issuing it will not allow the same to be cancelled for any purpose or changed for any purpose without serving 30 days' notice of cancellation or change upon the Director. Such service shall be by registered mail.

In the event of failure of any owner to obtain or maintain in effect such deposit or such insurance policy, the Director shall order the cancellation of the permit as provided in this section.

**Sec. 42.59 Indemnity and Hold Harmless.**

**Sec. 42.60 Procedure for Permit Denial, Revocation or Suspension.**

At the hearing, to be held by the City Manager, or his designee, the persons noticed pursuant to this section shall be given the opportunity to present witnesses and documentary evidence, to be represented by counsel and to examine all witnesses presented. Issuance of a written notice of cancellation, expiration or change in coverage by an insurance company shall be conclusive proof at the hearing of the change in the policy so indicated. The City Manager, or his designee, shall

mail or otherwise furnish to persons noticed pursuant to this section a written decision, stating the grounds for the decision. The taking or pendency of an appeal under subsection (b) shall not stay the effectiveness of such decision.

(b) If any person specified in Section 42.53(a) or (c) is dissatisfied with the decision of the City Manager in ordering the denial, revocation or suspension of the permit, such person may appeal to the City Council by filing a notice of appeal in writing with the City Clerk within ten days of the date of the written decision of the City Manager. The City Council, or a hearing examiner designated pursuant to Section 2.323, shall hold a hearing within 30 days of the receipt of the notice of appeal. However, no person shall be denied a permit solely on the basis that he has been convicted of a felony if he has obtained a certificate of rehabilitation under State Penal Code Sections 4852.01, et seq., or that he has been convicted of a misdemeanor if he has met all applicable requirements of the criteria of rehabilitation developed to evaluate the rehabilitation of a person when considering the denial of a license under State Penal Code Section 4852.01(a).
