FOR COUNCIL MEETING OF: March 17, 1998

City Council
2nd Avenue Realignment and Traffic Signal
March 17, 1998

SUMMARY:

Bids were received on February 4, 1998. Biondi Paving submitted one bid in the amount of \$915,958.70. This bid was less than Biondi Paving's low bid of \$944,497.15 and Teichert Construction's bid of \$1,047,646.40 submitted on August 20, 1997, which were rejected.

The 2nd Avenue Realignment and Traffic Signal Project will extend 2nd Avenue east of Stockton Boulevard and construct a traffic signal at the intersection. Other improvements include landscaping of 2nd Avenue and water/drainage improvements.

The University of California Regents have agreed to fund the cost of the project except for additional water and drainage works requested by the Department of Utilities and the cost of inspection which will be covered by City funds.

COMMITTEE/COMMISSION ACTION: None.

BACKGROUND INFORMATION:

The project was advertised and bids were received on February 4, 1998.

Biondi Paving was the sole bidder at \$915,958.70. Their MBE/WBE participation is 44.15% and 25.91% respectively, which meets the City's goals.

The Engineer's Estimate was \$680,000.

The University of California Regents, who are paying the majority of the project costs, recommend contract award.

Approval of the plans and specifications and award to Biondi Paving for the lowest responsive/responsible bid is recommended.

FINANCIAL CONSIDERATIONS:

The estimated total project cost is \$1,035,000. The existing project budget is \$46,000. Additional appropriations in the amount of \$989,578 are sufficient to cover the total project costs.

ENVIRONMENTAL CONSIDERATIONS:

A Negative Declaration has been approved for this project.

City Council
2nd Avenue Realignment and Traffic Signal
March 17, 1998

POLICY CONSIDERATIONS:

This action is consistent with Sacramento City Code, Title 58.

MBE/WBE EFFORTS:

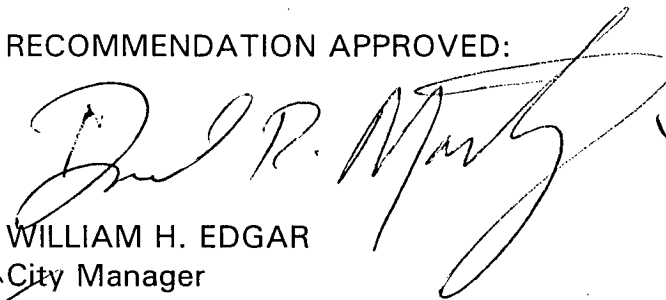

To encourage minority participation, plans and specifications were sent to 9 plan rooms and construction services organizations for publication. Four are directly involved with MBE/WBE construction firms. Staff actively recruited available MBE/WBE firms to participate in the bid process. The project was also announced on the Project Information Line and on the City's Internet site at www.sacto.org/bids. Project notices were sent to 30 organizations involved in MBE/WBE recruitment.

Respectfully submitted,

Duane J. Wray
Technical Services Manager
