**Low profile**

— Shallow profile design provides a clean, clutter-free look that will not obstruct message visibility.

**Better uniformity**

— Precise optical design and efficient HID lamps provide more uniform illumination over the entire sign than fluorescent or halogen.

**Economical**

— Widespread distribution with spacings up to 14' means fewer fixtures and less installation and maintenance costs.

**Minimizes glare**

— Integral shielding minimizes back light from the fixture and an optional side shield reduces side light if required.

**Copper free die cast housing**

— Assures long life in coastal areas or where salt is a problem.

**Seven-stage pretreatment/poly-ester powder paint**

— Long term corrosion protection.

**UL Listed**

— UL listed 1572, wet location.
