PROJECT EVALUATION:

SUBDIVISION REVIEW COMMITTEE RECOMMENDATION: On March 4, 1992, by a vote of six ayes, three absent, the Subdivision Review Committee voted to recommend approval of the tentative map, subject to conditions.

000111

PROJECT EVALUATION:

A. Land Use and Zoning

The subject site is designated Low Density Residential (4- 15 du/na) in the General Plan and Residential 4- 8 du/na in the North Sacramento Community Plan. The subject site is presently zoned Standard Single Family Residential (R-1). The site contains 0.22 ± acres and is developed with a duplex. The site is surrounded by low density residential to the north, south, east, and west in the R-1 zone. There are duplexes on the northwest corner of Cypress and Nogales (opposite the subject site) and the northeast corner of Cypress and Silvano which is adjacent and to the south of the subject site. The other parcels in the area contain single family residential units.

B. Applicant's Proposal

The applicant is requesting the necessary entitlement to divide the subject site which contains two duplex units into two halfplex lots for separate ownership and sale. No construction is proposed as part of the tentative map.

C. Staff Analysis

The applicant's request is consistent with the adopted General Plan, North Sacramento Community Plan and zoning. The site is designated Low Density Residential (4- 15 du/na) in the General Plan and Low Density Residential 4- 8 du/ac in the North Sacramento Community Plan. The site is surrounded by low density residential to the north, east, west and south. The property to be subdivided is zoned Standard Single Family (R-1) which permits a duplex or two halfplexes on a corner lot. There is a duplex across the street to the northwest as well as to the south on the northeast corner of Cypress and Silvano.

Halfplexes are allowed on corner lots in the Standard Single Family (R-1) zone as long as the design of the units meet the halfplex criteria in the zoning ordinance. The proposed halfplexes meet the halfplex criteria identified as follows:

- A. Each unit shall have its entrance, including driveways, off different streets;
- B. The halfplex lots and structure(s) combined, and the halfplex shall meet the minimum setback requirements for the R-1 zone;
- C. Each unit shall have an enclosed garage and a driveway of at least 20 feet long and eight feet wide. The enclosed garage shall be a minimum 10' wide and 20' long;
- D. Exterior siding materials and roofing materials shall be consistent with the quality, and compatible with the appearance of single family homes in the area;
- E. Rear and side yard areas shall be shaped to maximize their potential use.

D. Agency Comments

The proposed project was reviewed by several divisions of the Public Works Department, as well as other City Departments, public utilities. Their comments regarding the proposed project have been incorporated into the conditions.

ENVIRONMENTAL DETERMINATION:

The Environmental Coordinator has determined that the proposed project is exempt from Environmental Review

and has issued a categorical exemption (CEQA Sec. 15313).

RECOMMENDATION: Staff recommends the Planning Commission approve the Tentative Map to subdivide 0.22± corner lot into 2 halfplex lots in the Single Family Residential (R-1) zone by adopting the attached resolution.

H. Verify with the Building Division that the duplex is built with the proper interior property line protection for a halfplex.
