Honorable Members in Session:

SUBJECT: Parking on Private Property

SUMMARY

This report recommends that Section 25.150 of Chapter 25, Sacramento City Code, relating to parking of vehicles on private property be amended.

BACKGROUND

Currently Section 25.150 prohibits parking on private property without the consent of the owner. However, it does not cover parking of vehicles on unimproved surfaces (lawns, etc.) or parking vehicles on vacant improved or unimproved property when vehicles are offered for sale.

At present, enforcement action is taken under Section 3-E-8, City Zoning Ordinance when vehicles are found parked on unimproved property in residential districts. Section 3-E-8 prohibits parking of vehicles including boats, campers and trailers within the landscaped setback areas. Gaining code compliance under this section has been done by civil action combining this violation with more serious zoning violations. Section 3-E-8 has not been used alone in a civil action.

An exemption will be made for properties which did not have surfaced driveways prior to June 13, 1964.

By amending Section 25.150, it would no longer be necessary to pursue violations by civil action. The enforcement action would be by citation, which would in effect be a parking violation. The amendment would also allow the same type enforcement against vehicle owners who park vehicles on vacant, improved or unimproved property when such vehicles are offered for sale.

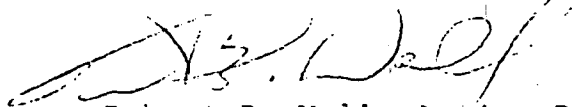

FINANCIAL DATA

The city will receive revenue by enforcement of the proposed ordinance. The amount of revenue is undetermined at this time.

RECOMMENDATION

Staff recommends that the Law and Legislation Committee approve the attached ordinance amending Section 25.150, and forward it to the full council for adoption.

Respectfully submitted,
