Subject: Community Development Block Grant (CDBG) Housing
Rehabilitation Loan Interest Rate Reduction

SUMMARY

This report recommends the approval of the attached resolution to lower the interest rate on CDBG funded housing rehabilitation loans for owner-occupants.

BACKGROUND

In January of 1988, the governing boards approved new administrative guidelines for CDBG-funded housing rehabilitation loans for owner-occupied properties. A major objective in revising the guidelines was to more closely align the CDBG program with the Federal Section 312 Rehabilitation Loan Program in terms of interest rate and certain underwriting criteria.

One of the revisions approved at that time, was the increase of the base interest rate on CDBG loans to match that of the Section 312 program. The Section 312 interest rate was then at 3% plus a 1% risk fee for an effective rate of 4%. Two weeks after local approval to increase the CDBG rate to 4%, HUD announced that the 1% risk fee on 312 loans was to be eliminated, effective upon the release of 1988 funding later in February. Thus, staff is recommending that the base interest rate on CDBG loans be reduced to 3% to again match that of the Section 312 program and that the incremental rates being charged to moderate-income borrowers in Target Areas be proportionally reduced by 1%.

FINANCIAL DATA

Funding amounts for CDBG rehabilitation loan programs are unchanged by approval of the attached resolution.

The interest rate for the first five years of the loan term will remain at 0%. The interest rate for the remaining term of the loan will be changed from 4% to 3%.

2. Agency Amortized Rehabilitation Loan Program

3. Target Area Loan Program
