PROJECT EVALUATION: Staff has the following comments:

- A. The subject site consists of two lots which total 1.2+ acres, one of which is currently developed with a bar/lounge and the other lot is vacant. The site is located in the General Commercial (C-2) zone and is surrounded to the north, south, and west by retail/commercial uses zoned C-2 and to the east by single family residential zoned R-1.
- B. The applicant is proposing to merge the two lots into one and to demolish the existing bar/lounge which is on the northeast side of the subject site. By merging the lots the applicant will be creating a lot large enough to develop a small retail center in the future. After reviewing the proposed merger it appears that the existing building and fence have non-conforming setbacks. The applicant should be aware that once the building is demolished the new development will need to meet all of the minimum building setbacks and the existing fence will need to be removed and replaced with a minimum six foot high solid wall.

  - a. File a Certificate of Compliance, submit all required documents according to the submittal requirements checklist, and pay necessary fees (\$500).
  - b. File a Waiver of Parcel Map.
  - c. Pay off any existing assessments.

ENVIRONMENTAL DETERMINATION: The proposal is exempt from environmental review pursuant to State EIR Guidelines (CEQA, Section 15305a).
