Rob  
Sacramento Insulation  
FAX: 916-371-0790

Dear Rob:

This letter is in reference to your call concerning the use of screws when installing a Lennox Hearth Products direct vent product. The installation instructions state that additional screws may be used at section joints for added stability. It is acceptable to use sheet metal screws to attach the termination to the flue pipe as long as the inner pipe is not penetrated.

If you have any additional questions please call me at (731) 885-7903.

Sincerely,

Gay Ellen Buehlman  
Technical Service Manager
