Description/Analysis:

Issue: The Department of Utilities (DOU) looked at various products to improve the detection of potential sanitary sewer overflows (SSOs) and combined sewer overflows (CSOs) before they occur. The DOU conducted a pilot program that deployed the Hadronex monitoring system at 10 manhole locations that had a history of previous surcharges and overflows. During this pilot program, the system detected several potential SSOs, which were then prevented by DOU field staff intervention. The DOU also received presentations from competing brands, some of which also installed and demonstrated their devices. After reviewing the performance of the Hadronex monitoring system, and reviewing the presentations and performance of competing brands, City staff recommends a contract to purchase up to 50 of the Hadronex SmartCover® Real Time Continuous Monitoring System for Manholes. Because a formal competitive bidding process was not conducted, competitive bidding must be suspended to award this contract.

Policy Considerations: City Code Section 3.56.230(c) authorizes the City Council to suspend competitive bidding for the purchase of supplies when, upon a two-thirds vote, the City Council determines it is in the best interests of the City to do so. City staff conducted testing and research that determined that no other competitors manufactured and offered the package of technology that the Hadronex SmartCover® offers. Based on this testing and research, staff believes that it is in the City's best interests to suspend competitive bidding to purchase the Hadronex SmartCover® Real Time Continuous Monitoring System for Manholes. The necessary parts, equipment, and network access for this System can only be obtained from one source, 3 T Equipment Company, Inc. This program also is consistent with the City's strategic goal to implement strategies to improve overall operational efficiency.

Economic Impacts: None

Committee/Commission Action: Not Applicable

Environmental Considerations:

California Environmental Quality Act (CEQA): The Community Development Department, Environmental Services Manager has determined that the proposed agreement is exempt from the California Environmental Quality Act (CEQA) under Section Number 15061(b) (3) of the CEQA Guidelines. This activity is covered by the general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA.

Sustainability Considerations: This purchase will further the City's Sustainability Master Plan goal of continuing to reduce sanitary sewer overflows.

Rationale for Recommendation: The DOU has an ongoing need to purchase manhole monitoring system equipment to ensure continuation of services to its customers and compliance with regulatory mandates.

Financial Considerations: The cost of the program for the maximum contract term extending through December 31, 2018, is \$261,271. There is sufficient funding in the DOU FY2013/14 Wastewater Collections operating (6006-14000-14001421) budget for purchases in the current fiscal year. 10 Hadronex SmartCovers® will be purchased and installed in FY2013/14, and 10 will be purchased and installed for each subsequent year of the contract. Expenditures in successive fiscal years will be subject to funding availability in the adopted budget of the applicable fiscal year.

Emerging Small Business Development (ESBD): 3T Equipment Company, Inc. is not certified with the City of Sacramento as an Emerging Small Business Enterprise (ESBE).

Background

The DOU conducted a pilot program starting in May 2012 using 10 Hadronex SmartCovers. The goal of the pilot program was to provide detection of SSO's early enough to deploy personnel to provide preventative action. The system has detected and, with field staff intervention, prevented several SSO's. In addition the system has detected unauthorized intrusions. Previous attempts with competing brands that promised an effective remote monitoring system for manholes have had limited success due to a variety of reasons, including cost, installation logistics, battery life, communication, reliability and size.

Research by Wastewater Collection staff found that in order for systems to be widely used, they need to be: simple and fast to install; low enough cost to enable widespread deployment in more than just a few locations; avoid false alarms; minimize maintenance burdens; and provide reliable dependable information. During 2012 and 2013 while the Hadronex monitoring system was installed, Wastewater Supervisors invited many competing companies (Mission Communication, Telog, Target 1, and Utility System Science & Software) to present and demonstrate their monitoring systems for manholes. All of these companies made presentations and in some cases installed and demonstrated their devices for weeks. Additionally, Wastewater Supervisors took trips to other municipalities to seek advice, hear about evaluations and testing and get recommendations of competitive monitoring systems for manholes. No other system that was presented to/or tested by Wastewater Collection staff performed as well and provided the level of protection that the Hadronex SmartCover system did. After reviewing the performance of the competing devices as well as the companies' presentations, City staff recommends the purchase of the Hadronex SmartCover®.

RESOLUTION NO.

Adopted by the Sacramento City Council

Suspending Competitive Bidding and Awarding a Contract for the Purchase of a Continuous Monitoring System for Sewer and Combined Sewer System Manholes

BACKGROUND

- A. The Department of Utilities (DOU) operates the City's separate sanitary sewer system and combined sewer system. Early detection of potential sanitary sewer overflows (SSOs) and combined sewer overflows (CSOs) through remote monitoring allows the DOU to respond and prevent SSOs and CSOs before they occur.
- B. The DOU looked at various products to improve the detection of potential sanitary sewer overflows (SSOs) and combined sewer overflows (CSOs). The DOU conducted a pilot program that deployed the Hadronex monitoring system at 10 manhole locations that had a history of previous surcharges and overflows. During this pilot program, the system detected several potential SSOs, which were then prevented by DOU field staff intervention. The DOU also received presentations from competing brands, such as Mission Communication, Telog, Target 1, and Utility System Science & Software, some of which also installed and demonstrated their devices.
- C. After reviewing the performance of the Hadronex monitoring system, and reviewing the presentations and performance of competing brands, City staff is recommending a contract to purchase up to 50 of the Hadronex SmartCover® Real Time Continuous Monitoring System for Manholes. Because a formal competitive bidding process was not conducted, competitive bidding must be suspended to award this contract.
- D. City Code Section 3.56.230(c) authorizes the City Council to suspend competitive bidding for the purchase of supplies when, upon a two-thirds vote, the City Council determines it is in the best interests of the City to do so. City staff conducted testing and research that determined that no other competitors manufacture and offer the package of technology that the Hadronex SmartCover® offers. Based on this testing and research, it is in the City's best interests to suspend competitive bidding to purchase the Hadronex SmartCover® Real Time Continuous Monitoring System for Manholes. The necessary parts, equipment, and network access for this system can only be obtained from one source, 3 T Equipment Company, Inc.

BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE CITY COUNCIL RESOLVES AS FOLLOWS:

Section 1. In the best interests of the City, competitive bidding is suspended and a contract is awarded to 3T Equipment Company, Inc., for the purchase of the Hadronex SmartCover® Real Time Continuous Monitoring System for Manholes, for an initial term through December 31, 2016, with the option to extend for up to two additional one-year terms, for a total amount not to exceed \$261,271 for the initial and extended terms.

Section 2. The City Manager or the City Manager's designee is authorized to approve the one year extensions provided that funding is available for this purpose in the approved budget for the applicable year.

REQUIREMENTS OF THE NON-DISCRIMINATION IN EMPLOYEE BENEFITS CODE

INTRODUCTION

The Sacramento Non-Discrimination In Employee Benefits Code (the "Ordinance"), codified as Sacramento City Code Chapter 3.54, prohibits City contractors from discriminating in the provision of employee benefits between employees with spouses and employees with domestic partners, and between the spouses and domestic partners of employees.

APPLICATION

The provisions of the Ordinance apply to any contract or agreement (as defined below), between a Contractor and the City of Sacramento, in an amount exceeding \$100,000.00. The Ordinance applies to that portion of a contractor's operations that occur: (i) within the City of Sacramento; (ii) on real property outside the City of Sacramento if the property is owned by the City or if the City has a right to occupy the property; or (iii) at any location where a significant amount of work related to a City contract is being performed.

The Ordinance does not apply: to subcontractors or subcontracts of any Contractor or contractors; to transactions entered into pursuant to cooperative purchasing agreements approved by the Sacramento City Council; to legal contracts of other governmental jurisdictions or public agencies without separate competitive bidding by the City; where the requirements of the ordinance will violate or are inconsistent with the terms or conditions of a grant, subvention or agreement with a public agency or the instructions of an authorized representative of any such agency with respect to any such grant, subvention or agreement; to permits for excavation or street construction; or to agreements for the use of City right-of-way where a contracting utility has the power of eminent domain.

DEFINITIONS

As set forth in the Ordinance, the following definitions apply:

"Contract" means an agreement for public works or improvements to be performed, or for goods or services to be purchased or grants to be provided, at the expense of the City or to be paid out of moneys deposited in the treasury or out of the trust money under the control or collected by the City. "Contract" also means a written agreement for the exclusive use ("exclusive use" means the right to use or occupy real property to the exclusion of others, other than the right reserved by the fee owner) or occupancy of real property for a term exceeding 29 days in any calendar year, whether by singular or cumulative instrument, (i) for the operation or use by others of real property owned or controlled by the City for the operation of a business, social, or other establishment or organization, including leases, concessions, franchises and easements, or (ii) for the City's use or occupancy of real property owned by others, including leases, concessions, franchises and easements.

"Contract" shall not include: a revocable at-will use or encroachment permit for the use of or encroachment on City property regardless of the ultimate duration of such permit; excavation, street construction or street use permits; agreements for the use of City right-of-way where a contracting utility has the power of eminent domain; or agreements governing the use of City property that constitute a public forum for activities that are primarily for the purpose of espousing or advocating causes or ideas and that are generally protected by the First Amendment to the United States Constitution or that are primarily recreational in nature.

“Contractor” means any person or persons, firm partnership or corporation, company, or combination thereof, that enters into a Contract with the City. “Contractor” does not include a public entity.

“Domestic Partner” means any person who has a currently registered domestic partnership with a governmental entity pursuant to state or local law authorizing the registration.

“Employee Benefits” means bereavement leave; disability, life, and other types of insurance; family medical leave; health benefits; membership or membership discounts; moving expenses; pension and retirement benefits; vacation; travel benefits; and any other benefit given to employees. “Employee benefits” shall not include benefits to the extent that the application of the requirements of this chapter to such benefits may be preempted by federal or state.

CONTRACTOR’S OBLIGATION TO PROVIDE THE CITY WITH DOCUMENTATION AND INFORMATION

Contractor shall provide the City with documentation and information verifying its compliance with the requirements of the Ordinance within ten (10) days of receipt of a request from the City. Contractors shall keep accurate payroll records, showing, for each City Contract, the employee’s name, address, Social Security number, work classification, straight time pay rate, overtime pay rate, overtime hours worked, status and exemptions, and benefits for each day and pay period that the employee works on the City Contract. Each request for payroll records shall be accompanied by an affidavit to be completed and returned by the Contractor, as stated, attesting that the information contained in the payroll records is true and correct, and that the Contractor has complied with the requirements of the Ordinance.
