(1) "Continuous service" shall mean that the member of the Retirement System shall have been employed in city-service without interruption during the time of his employment, subject, however, to the following exceptions:

1. Should a member discontinue service with the city and thereafter, and within 3 years, reenter city service, such shall not be considered as an interruption of his service.

2. That for those employees whose services were interrupted by the National Emergency prior to August 15, 1945 (VJ Day), and such employees returned to city service within a period of six months following said date, such shall not be considered as an interruption of their service.

3. That any absence from city-service by reason of service in the military or naval forces of the United States or of the State of California in any war in which the United States has been engaged or may be engaged, or during any national emergency, shall not be considered as a break in the continuity of said employee's service; but the time during which a person has been or shall be absent, for any reason, from city-service shall not be included in calculating any benefit under the Retirement System or in determining whether a member qualifies for retirement.

The City Council, however, may elect, in case of war, or during other national emergency, to provide funds sufficient to continue the contributions of members absent and in such service, in which case the period of such absence shall be deemed city-service.
