COMMENTS: This parcel is irregularly shaped. Per Assessor's parcel map, the southern property line dimension is 30', not 40' as shown on plan. Applicant needs to locate garage towards the south property line at a point where there is at least 45.66' feet between the west and east property lines at the closest point. (20' required minimum driveway length from street-side property line + 20' 8" outer dimensions of garage + 5' desired distance from east property line to accommodate an existing tree = 45.66'.) According to my calculations, that would mean the garage would need to be about 17.5' from rear (southern) property line. Setbacks and lot coverage will then be okay. See corrected location information on site plan with my stamp and initials. M. May 5/16/2003.
