to reveal that advice to the opposing parties. She explained that the reason for this bill is that Senator Kopp feels that newspapers in particular should be given more information. Committeemember Pane said he would like to hear from the Senator on this issue before he votes either way, and suggested staff request that Senator Kopp write a letter or send a representative to talk to staff and/or Council. Attorney Balter said she would get something from Senator Kopp. She went on to say that city attorneys and other public attorneys should have as broad a privilege as a private attorney, and that confidential memos should not be public records. She noted that right now these confidential communications are protected by the attorney-client privilege. Committeemember Ortiz said she would probably vote to oppose this bill, but that she would like to get more information before making a recommendation. The Committee agreed to have this matter brought back for a vote after more information is available to them.

5. An ordinance adding subsection (z) to Section 27.04.050 of the Sacramento City Code prohibiting the docking of vessels at City-owned and City-managed recreation docks for more than thirty-six hours or for the purpose of living aboard.

MINUTES:

Ken Harris, Parks and Recreation Manager, presented this item to the Committee. A copy of the staff report, which was not available at the time the agenda was distributed, is attached hereto. Mr. Harris explained that some boaters have been using the public docks as second homes or, sometimes, as their only home. Chair Fargo asked the reason for the 36-hour limit. Attorney Balter said that this time limit would allow for a one-night stay, but would eliminate the use of the public docks for long-term parking by persons living aboard their boats. Mr. Harris said that the docks referred to in this ordinance aren't very long; the one in Old Sacramento has only 150' of dock space and accommodates only about four boats at a time. There was some discussion regarding the fact that at one time the City charged for docking, but that it became too costly to enforce. Ortiz moved to support the ordinance relating to docking of vessels at City-owned and City-managed recreational docks, Pannell seconded the motion, and it was unanimously supported. This ordinance will now go to full Council with the Committee's recommendation of support.

6. An ordinance amending Article I of Chapter 45 of the Sacramento City Code, relating to trees.

Recommendation of Staff: Support original staff proposal and forward to Council.

Committee Action: No action taken.

MINUTES:

There was considerable discussion regarding this proposed ordinance, which has been before the Committee on two previous occasions. Pane suggested that the City allow staff to trim all the trees the City used to trim before the moratorium a few years ago, and just elongate the period of time it takes to do this trimming. He said he doesn't like concentrating tree-trimming efforts in some areas and not others. Pannell expressed his concern about the liability issues of not trimming some trees, and feels no trees should be left unmaintained. Chair Fargo said she feels this proposed ordinance is still premature, absent approval of the Tree Management Plan. She then suggested postponing any decision regarding this ordinance until there is a final Tree Management Plan. Mr. Harris said staff has obviously underestimated the amount of controversy regarding this issue, and that he will bring a final report back to this Committee in a month or two. No further action was taken at this time.

The meeting was adjourned at 1:40 p.m.
