

CITY OF SACRAMENTO

DEPARTMENT OF PUBLIC WORKS

PARKING DIVISION

November 5, 1985
REF: 85-11-29

Budget & Finance Committee
Sacramento, CA

Honorable Members in Session:

SUBJECT: SURVEY OF HANDICAPPED SPACES IN CITY PARKING FACILITIES

SUMMARY

This is a report back to Committee of a request made in September 1985 for a survey of handicapped space usage at City parking facilities.

BACKGROUND INFORMATION

In September 1985, a survey of handicapped space usage at City lots was conducted at different times of the day over a ten (10) day period. The results are shown on the attached table.

Violators in handicapped spaces were few during the survey period. Parking enforcement officers are called in to cite violators (\$51.00 fine) when lot personnel receive a complaint from a citizen.

A few deficiencies in marking and location of handicapped spaces were found. These will be corrected at low cost within a 60-day period.
