

TRANSPORTATION AND COMMUNITY DEVELOPMENT COMMITTEE

Tuesday, February 9, 1988

LOCATION: City Council Chambers
915 I Street
Sacramento, California.

Meeting was called to order at the hour of 1:49 p.m. by Chair Lynn Robie and roll call was as follows:

PRESENT: Committee Member Robie (Chair), Ferris

ABSENT: Committee Members Shore, Kastanis

ALSO PRESENT: Council Member Mueller

1. Report regarding landfill gas migration (D-All).

RECOMMENDATION OF STAFF: FILE

COMMITTEE ACTION: REQUEST REPORT(S) BACK

VOTING RECORD: BY CONSENSUS

REPORT(S) BACK: A REPORT OUTLINING THE FOLLOWING IS DUE MARCH 29, 1988:

1. Outline of the various scenarios for addressing the LFG problem, including the possibility of selling LFG.
2. Report regarding other potential problem sites within the City limits, including old class I landfill site in District 6.
3. Report on placement of future additional barriers and monitoring wells.

MINUTES:

Reginald Young, Deputy Director of Public Works, introduced David Pelser, a Senior Engineer from the Solid Waste Division. Mr. Pelser summarized the key concerns discussed in the staff report: (1) the possibility that landfill gas (LFG) caused damage to vegetation along the river, and (2) concern with off-site migration of LFG in violation of the operating permit.
