CONTACT PERSON: Anis Ghobril, Assistant Engineer, 264-5367

FOR COUNCIL MEETING OF: June 10, 2003

SUMMARY:

This report recommends that the City Council approve the conversion of three public streets (La Sandia Way, Caselli Circle, and El Limon Court) within the Phoenix Park redevelopment project from parallel parking to right angle parking. The project applicant, the Sacramento Housing and Redevelopment Agency, has proposed right angle parking as a means of providing extra on-street parking capacity required to support the project. The Planning Commission has approved the project; however, this approval is contingent upon City Council approval of the right angle parking, as required by City Code Section 10.36.290. Please see Attachment "A" for project location.
