Nature of Work: WAREHOUSE SHELL BUILDING # 7, 5060 sq.ft

CONSTRUCTION LENDING AGENCY : I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C).

Lender's Name _____ Lender's Address _____

LICENSED CONTRACTORS DECLARATION: I hereby affirm under penalty of perjury that I am licensed under provisions of Chapter 9 (commencing with section 7000) of Division 3 of the Business and Professions Code and my license is in full force and effect.

License Class B License Number 777618 Date 1/9/06 Contractor Signature [Signature]

OWNER-BUILDER DECLARATION: I hereby affirm under penalty of perjury that I am exempt from the contractors License Law for the following reason (Sec. 7031.5, Business and Professions Code; any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 8 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500.00);

I, as a owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professional Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his/her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he/she did not build or improve for the purpose of sale.)

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law).

I am exempt under Sec. _____ B & PC for this reason: _____

Date _____ Owner Signature _____

IN ISSUING THIS BUILDING PERMIT, the applicant represents, and the city relies on the representation of the applicant, that the applicant verified all measurements and locations shown on the application or accompanying drawings and that the improvement to be constructed does not violate any law or private agreement relating to permissible or prohibited locations for such improvements. This building permit does not authorize any illegal location of a ny improvement or the violation of any private agreement relating to location of improvements.

I certify that I have read this application and state that all information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction and herby authorize representative(s) of this city to enter upon the abovementioned property for inspection purposes.

Date 1/9/06 Applicant/Agent Signature [Signature]

WORKER'S COMPENSATION DECLARATION: I hereby affirm under penalty of perjury one of the following declarations:

I have and will maintain a certificate of consent to self-insure for workers' compensation as provided for by Section 3700 of the Labor Code, for the performance of work for which the permit is issued.

I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier STATE FUND Policy Number 692-99 0002274 Exp Date 10/01/2006

(This section need not be completed if the permit is for \$100 or less) I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Date 1/9/06 Applicant Signature [Signature]

WARNING: FAILURE TO SECURE WORKER'S COMPENSATION COVERAGE IS UNLAWFUL AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS (\$100,000) IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST AND ATTORNEY'S FEE.

THIS PERMIT SHALL EXPIRE BY LIMITATION IF WORK IS NOT COMMENCED WITHIN 180 DAYS.

Special Inspection Final Report
RALEY INDUSTRIAL PARK BUILDING 7
Sacramento, California
Permit No. 0516671
WKA No. 5867.03

In accordance with City of Sacramento special inspection requirements, our firm has performed *Special Inspection and Testing* in accordance with Sections 106 and 1701 of the Uniform Building Code for the subject project. Our observation and test results indicate that the following items were constructed, to the best of our knowledge, in accordance with the project's plans and specifications:

Reinforcing

Steel: Inspected placement of reinforcing steel for building footings.

Concrete: Inspected placement of concrete for building slab-on-grade. Obtained concrete samples for laboratory testing and performed slump tests. Performed laboratory compressive strength testing.

Structural

Steel: Performed shop welding inspection of fillet welds and partial penetration welds for canopy frames, tube steel columns, panel embeds and wide flange beams at S & H Welding, Sacramento, California. Monitored contractor compliance with Welding Procedure Specifications (WPS). Identified material with manufacturer's mill certificates. Checked welder certification records.

Performed field welding inspection of fillet welds for ledger angles to panel embeds, panel to panel connections, base of panels to foundations, trusses to column tops and canopies. Monitored contractor compliance with Welding Procedure Specifications (WPS). Checked welder certification records.

Building Pad Compaction Letter
RALEY INDUSTRIAL PARK, BUILDINGS 1 - 15
Santa Ana Avenue Near Raley Boulevard
Sacramento, California
WKA No. 5867.02

As authorized, our firm has provided soil engineering testing and observation services during earthwork construction for building pads 1 through 15 at the Raley Industrial Park, located at Santa Ana Avenue near Raley Boulevard, in Sacramento, California. The purpose of our work has been to provide this written report concerning compliance of earthwork operations with the provisions contained in the Geotechnical Engineering Report (WKA No. 5867.01, dated February 18, 2004). Our work has been performed in accordance with our proposal to you dated October 26, 2005 and with your Subcontract Agreement No. 05-010-12 dated October 26, 2005.

Our representatives observed the building pad construction between October 31 and November 5, 2005. The earthwork contractor was McClernon Engineering. Initially, the site was cleared of significant vegetation, rubbish and rubble. Building pad areas designated to receive engineered fill were uniformly scarified, moisture conditioned and compacted prior to receiving fill. Engineered fill was constructed using suitable on-site materials.

Field and laboratory moisture-density tests were performed during building pad grading operations. Our work was conducted in accordance with generally accepted engineering and testing procedures. Results of our work indicate building pad areas receiving fill and fill placed in those areas were compacted to at least 90 percent of ASTM D1557 maximum dry density. The daily field reports and test results are attached to this letter for your convenience.

In our opinion, building pad earthwork has been accomplished in accordance with the provisions contained in the geotechnical engineering report. The building pads are considered suitable for support of the proposed structures provided our further recommendations for foundations and floor slab support are followed.

Page 2

Horizontal and vertical lines and grade for building pad construction were determined by others.

Our firm does not guarantee earthwork construction, nor does our work relieve the contractor of his responsibility for full compliance with project plans and specifications.
