Description/Analysis

Issue: Pardee Homes, the owner of the Natomas Meadows development, has asked the City to form a community facilities district. Through the issuance of bonds, the City will acquire certain public facilities constructed by Pardee and finance certain fees paid to develop the property.

The attached resolution will memorialize the intent of the City and Pardee Homes to reimburse certain development fees paid in advance of a bond sale to the extent of available bond proceeds.

Policy Considerations: This resolution is adopted principally for purposes of establishing compliance with the requirements state law that parties declare intent to reimburse fees from bond proceeds from bonds issued after the payment of those fees. This action is entirely permissive. It does not bind the

City to make any expenditure, incur any indebtedness, or proceed with the Project.

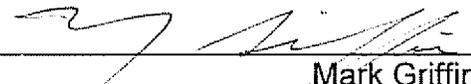

Environmental Considerations: The City Council's action in adopting the resolution is for the purpose of approving an agreement as part of the formation and sale of bonds, therefore, not a project for purposes of the California Environmental Quality Act.

Rationale for Recommendation: The reimbursement of fees from bonds permits the financing of fees through bond debt regardless of when the fees are paid. Projects are more financially viable with this capability.

Financial Considerations: Financing of eligible fees will occur in one of two ways: for a fee that Pardee has paid, the City will reimburse Pardee from available bond proceeds; and for a fee that Pardee owes but has not paid, the City will use available bond proceeds to pay the fee on Pardee's behalf.

The payment of principal and interest on the bonds would be secured by a special tax lien placed on each property within the CFD, without obligation to the City.

Emerging Small Business Development (ESBD): City Council adoption of the attached resolution is not affected by City policy related to the ESBD Program.
