Honorable Members in Session:

SUBJECT: Report Back on Other Cities' Methods of Providing
Operational Space Needs

SUMMARY

This report is a follow-up to Councilperson Kastanis's request on March 17, 1987, Phase II Space Need Study wrap-up presentation, for information regarding other cities' methods of providing operational space - city owned buildings versus leased buildings.

INFORMATION

Exhibit I provides an overview of the responses staff received from larger California cities surveyed. The highlights of the survey information gathered are as follows:

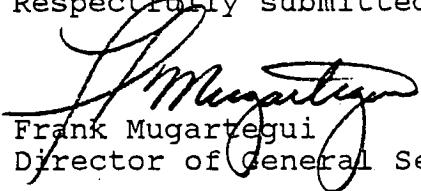

- o The City of Sacramento currently leases 99,744 square feet of administrative facilities, which exceeds all cities surveyed.
- o Lease only for short-term needs.
- o City owned for long-term needs.

1. How much total square footage do you currently:				
a. lease	less than 10,000	35,000	lease very little	lease 30% of office
b. own	1,500,000 - excludes Anaheim Stadium and Convention Center	1,100,000	2,000,000 +	just a guess - records terrible no way to know right now
(include corporation yard)				
2. How many employees do you currently have?	1,800	2,300	4,800	4,000
3. When was the last city-owned facility constructed?	1980 - Main Civic Center	1985 - Police Area Station	Waste to Energy Facility	1970 - Museum
How was it financed?	Certificates of Participation	General Revenue	Joint Venture with County of LA Revenue Bonds	Bond Issue
4. Do you currently have all the space you need?	No	No	Yes	No
If not, by how many square feet are you deficient?	unknown	87,000		Space planning questionnaire in the works
5. How are you planning to address your space deficiencies?	Having serious budget problems not addressing space needs now	Building new City Hall	N/A	Lease or build
How are you planning to finance these improvements?		COP		not sure
6. What's the city's long range versus short-term plan to address space needs?	see above - also note - Anaheim unique due to city ownership of utility system and the stadium being located there	New city hall designed to meet 10-20 year office space needs Corp yard space is a problem in process of finding land to buy and construct corp yard satellite estimated completion 5-6 years	Space needs addressed 10 years ago which eliminates a crunch today	Not sure - waiting for data from questionnaire - suffering from lack of planning particularly in federally funded programs
