Dear Mr. Tang:

Enclosed herewith is a complete set of revised drawings and partial calculations pertaining only to the added work. RPS has included some additional framing adjacent to lines C.9 at the south side of the building in phase 3. We at this time would like to revise the permit to incorporate this portion of the work. Again as discussed this work was what we had previously indicated as future work, but now has been elected to be completed under the above permits. The additional value of this work is estimated to be around \$120,000.00. We trust at this juncture your office will advise us of additional fees as required.

If you have any further questions please feel free to call at any time.

Cordially,
