**PROJECT EVALUATION:** Staff has the following comments:

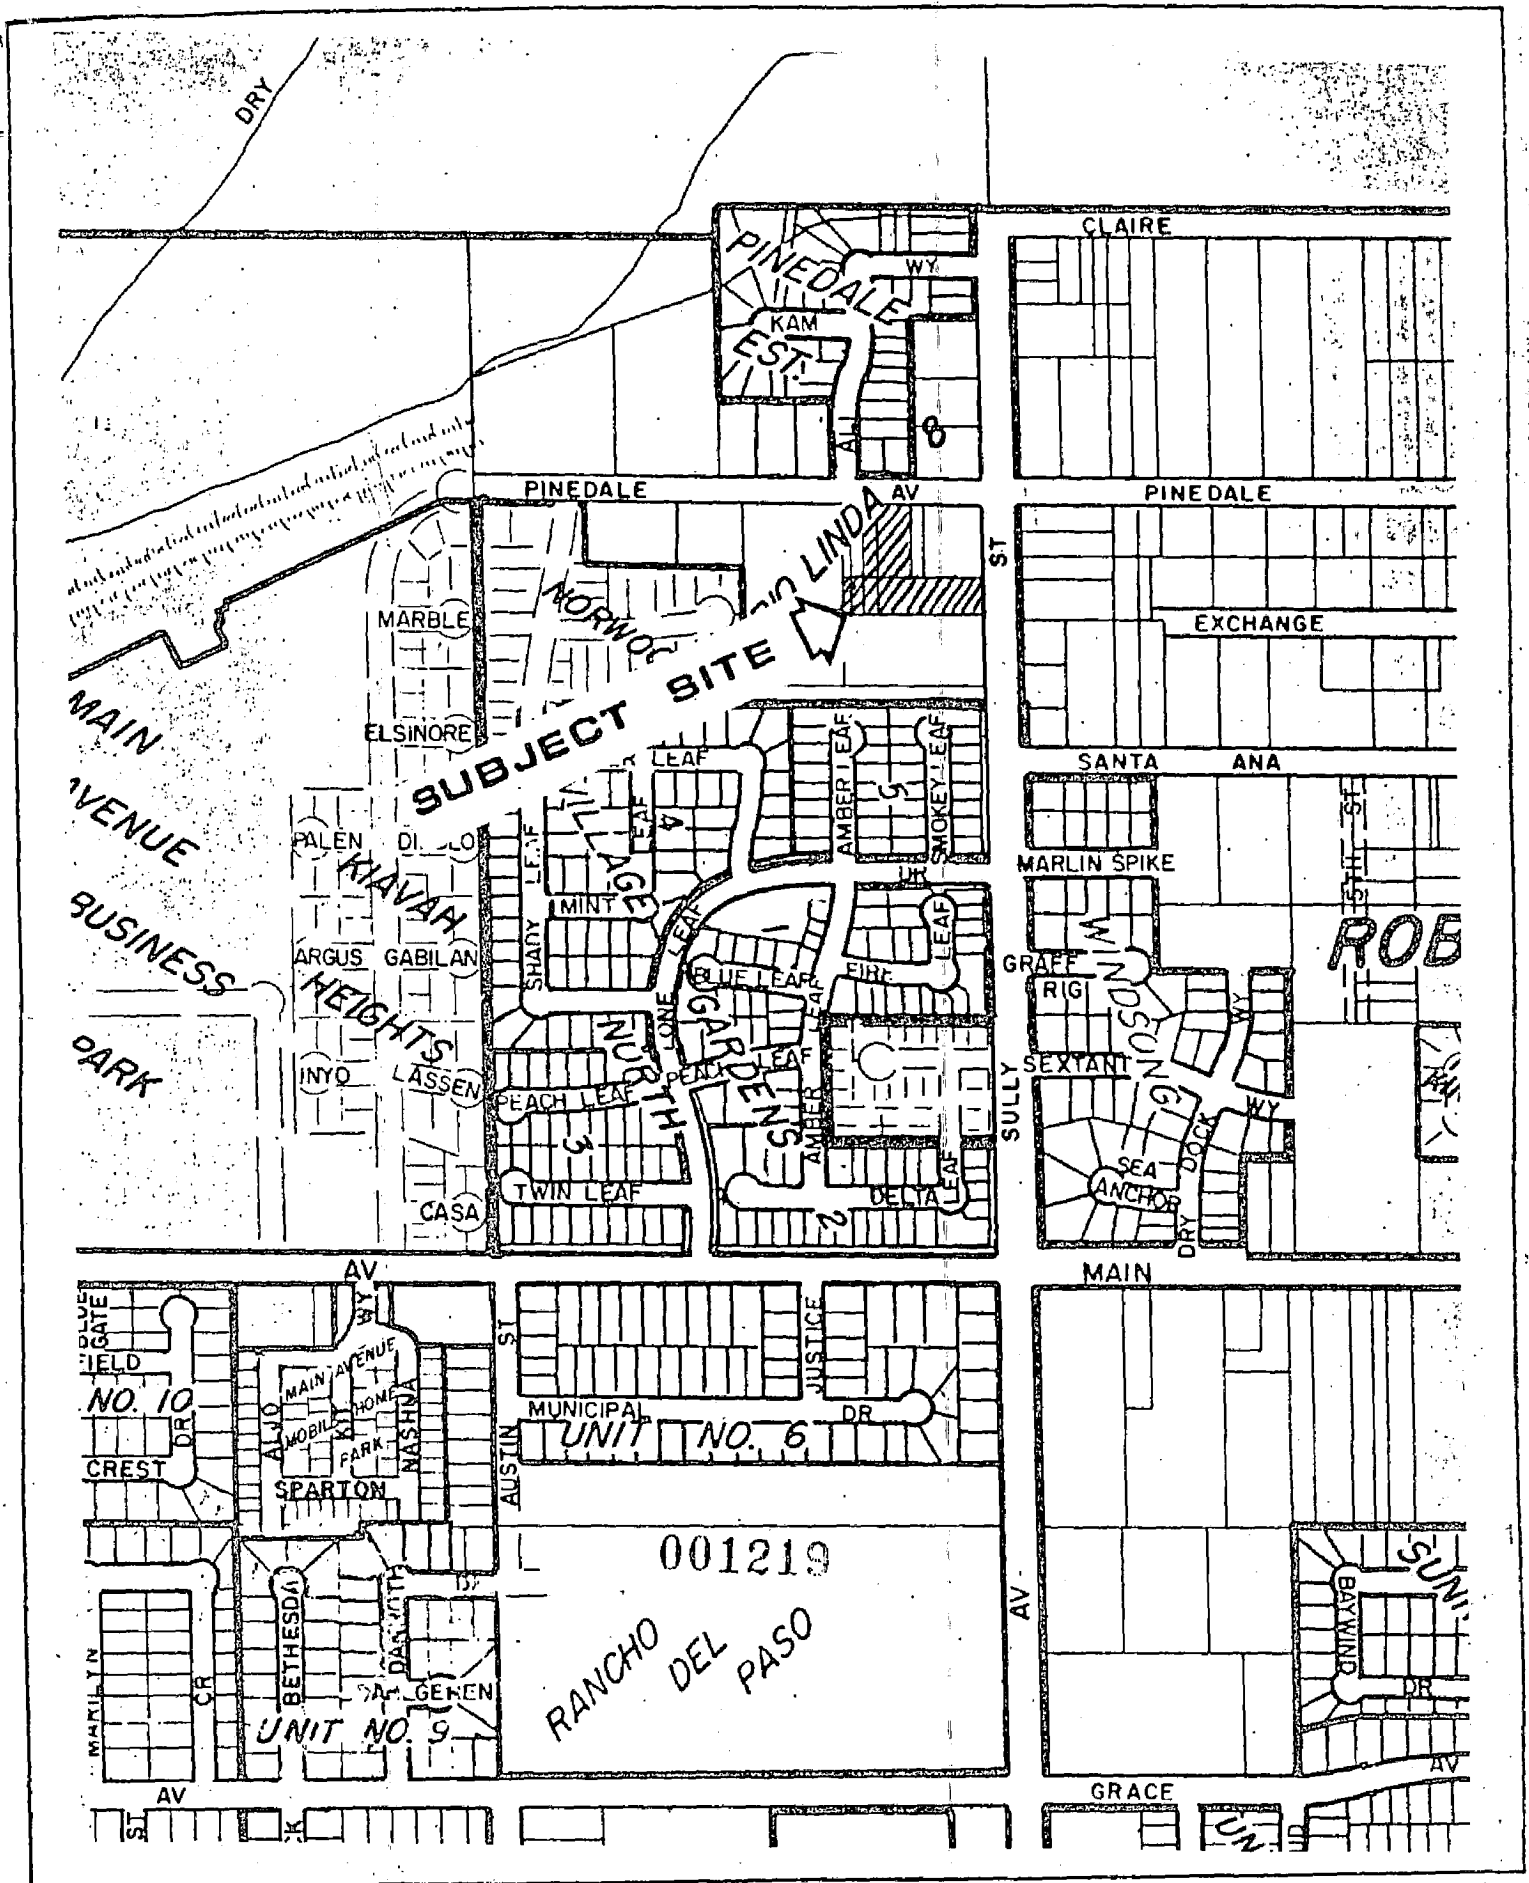

- A. The subject site consists of four lots totaling 2.4+ acres in the Single Family Residential (R-1) zone. The General Plan designates the site Low Density Residential (4-15 du/na) and the 1984 North Sacramento Community Plan designates the site Residential (4-8 du/na). The surrounding zoning is R-1 to the north, east and west. The zoning to the south is A. The surrounding land uses are Single Family Residential except for an open field to the west.

- B. The subject site contains three dwelling units located on two of the lots. The applicant proposes to merge four lots into two lots for the purpose of making a 20 foot wide lot useable by merging it with other parcels and creating larger lots.
- C. The proposed Lot Line Adjustment was reviewed by City Traffic Engineering, Engineering, Water and Sewer, and Real Estate Divisions. The following comments were received:
1. File Certificate of Compliance and waive parcel map prior to recordation;
  2. Pay off or segregate any existing assessments; and
  3. Show all existing easements.

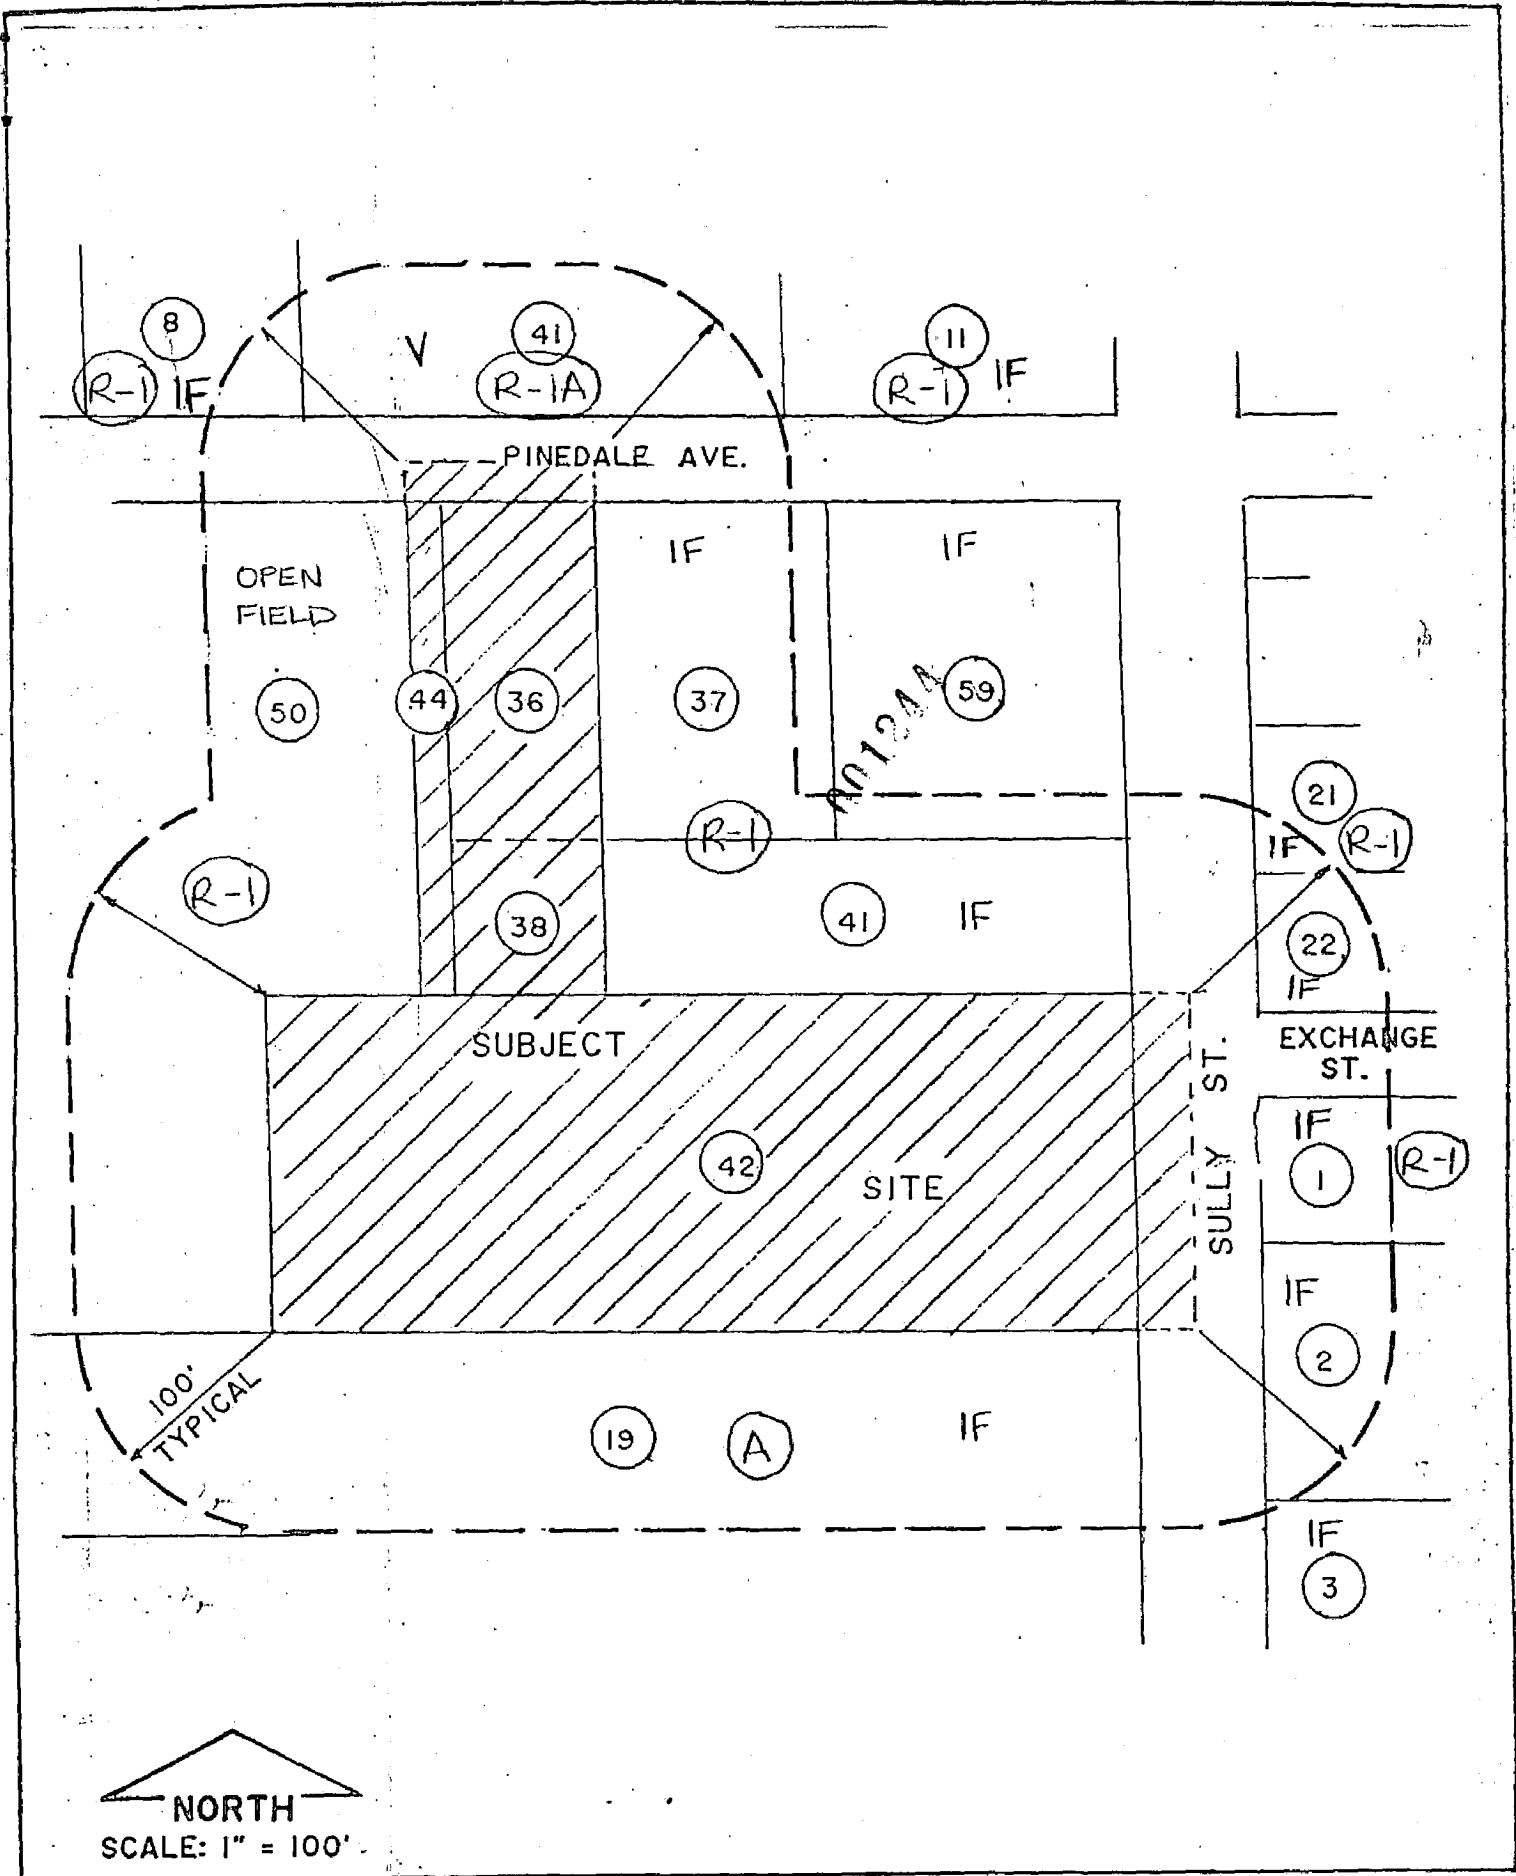

**ENVIRONMENTAL DETERMINATION:** The proposed Lot Line Adjustment is exempt from environmental review pursuant to State EIR Guidelines (CEQA, Section 15305a).

**RECOMMENDATION:** Staff recommends the Planning Commission approve the Lot Line Adjustment by adopting the attached Resolution.
