

RESOLUTION NO. 1109

ADOPTED BY THE SACRAMENTO CITY PLANNING COMMISSION

ON DATE OF August 10, 1989

APPROVING A LOT LINE ADJUSTMENT TO MERGE FIVE PARCELS TOTALING
78.2+ ACRES INTO TWO PARCELS

(APN: 117-0120-007, 008, 024; 117-0650-081; 117-0630-086)

(P89-247)

WHEREAS, the Planning Director has submitted to the Planning Commission a report and recommendation concerning the lot line adjustment for property located west of Bruceville Road, east of Grandstaff Drive, north of Union House Creek, and

WHEREAS, the lot line adjustment is categorically exempt pursuant to Section 15305(a) of the California Environmental Quality Act (CEQA) Guidelines; and

WHEREAS, the lot line adjustment is consistent with the General Plan and 1986 South Sacramento Community Plan; and the proposed lot line merger conforms with the Plan Designation;

NOW, THEREFORE, BE IT RESOLVED by the Planning Commission of the City of Sacramento:

that the lot line adjustment for property located west of Bruceville Road, east of Grandstaff Drive, north of Union House Creek, City of Sacramento, be approved as shown and described in Exhibits A and B attached hereto, subject to the following conditions:

1. File certificate of compliance, submit all required documents according to the submittal requirements checklist, and pay necessary fees.
2. File a waiver of parcel map.
3. Pay off or segregate any existing assessments.
4. Approval subject to the following notice: The property on which construction is authorized by this permit may be subject to flooding. It is the applicant's and property owner's responsibility to ascertain whether and to what extent such flooding may occur, and to review the applicable base flood elevations for the proposed project which are contained in the effective Flood Insurance Rate Map; the Department of the Sacramento District Corps of Engineers, Sacramento, California, Flood Insurance Study for the Sacramento City and County of California, FBFM and FIRM work map, dated January 1989; and, all preliminary flood maps available at the City of Sacramento's Planning Division. The Federal Emergency Management Agency and the U.S. Army Corps of Engineers ("Corps") are studying portions of the City of Sacramento to

determine what improvements and measures may be needed in order to deem the areas under study adequately protected from a 100 year flood. Until the needed improvements and measures are in place, the areas under study may be subject to flooding by a 100 year or lesser flood. (A "100 year flood" refers to the area subject to inundation by flooding once during any given 100 year cycle; however, such flooding could occur in any given year.) The applicant and property owners should check with the local Corps to ascertain the status of its ongoing study and the projected completion date of any flood control project which might affect the proposed development. Flood insurance may be mandatory in all areas not protected from a 100 year flood, and the City of Sacramento recommends obtaining such insurance whether it is mandated or not. If the investigation of the nature of the flood hazard indicates that the property is at risk, it is the applicant and property owner's responsibility to ensure that all persons holding a record title interest in the property, and all subsequent owners, tenants, occupants, and other interested parties receive notice, as required under applicable law, of the flooding risk to which the property may be subject. This notice is intended to ensure that those persons choosing to develop property in an area subject to flooding have knowledge and the means of acquiring knowledge of the particular risks involved in such development. This notice shall not create liability on the part of the City of Sacramento, or any of its officers, agents, or employees for any damages to persons or property caused by flooding.

CHAIRPERSON

ATTEST:

SECRETARY TO CITY PLANNING COMMISSION
